Tools

- Microsoft Visual C++ 5.0
  - Use to build a regular DLL
- CDK 3.0 for Windows
  - For Palm™ Desktop software 3.0
    - From CDK 3.0—imex20.dll, subs30.dll
  - For Palm Desktop software 3.x.x
    - Only your Conduit is needed

Decision

PalmSource 99

- Sync with existing Palm OS® application
  - Write conduit code
- Sync with custom Palm OS® application
  - Create this first

Process

- Register the conduit
- Build debug DLL
- Run in debug mode
- Modify to fix bugs
- Build release DLL
- Test in Palm Desktop

Demonstration

PalmSource 99

- Perform Step by Step Process
- Q&A
