Developer Tools

PalmSource 99

- Who are we?
- What do we do?
- What makes a tool?

Developer Tools

PalmSource 99

Software Development Kits

- More than just headers and libs
  - GCC Support
  - Sample Applications
  - Licensee Tools
  - DTS Code Snippets/Samples
  - Documentation
  - Windows and Macintosh Equal
- Simultaneous Release
  - Why?
  - How?
  - When?

Developer Tools

PalmSource 99

Conduit Development Kits

- Again, more than just headers and libs
- Conduit frameworks: Generic Conduit
- Wizards
- Tutorials
- More APIs
- CDK for Mac, Java Edition (???)

Developer Tools

PalmSource 99

The Simulator (Futures)

- Palm VII™ Support
- Uses desktop TCP/IP stack
- Gremlin hordes
- Windows version
- GCC support

Developer Tools

PalmSource 99

Palm™ Debugger

- Windows version
- Source level debugging
- More graphical debugger features
- Faster debugging with Poser

Developer Tools

PalmRez

- Owned and maintained by Palm
- Japanese support
- Euro character support
- Color support
- Windows command line version

Developer Tools

PalmSource 99

Resource Editing

- Currently: Constructor
  - Editing .PRCs
  - Japanese Support
  - Color support and new types
- Future:
  - Our own editor
  - Cross platform
  - Text resources

Developer Tools

PalmSource 99

PQA Builder

- Currently: Macintosh and Windows
- Future: Unix
- Open source model?

Developer Tools

PalmSource 99

GCC

- Update Palm OS® source code
- Update samples
- Continuously improve Gnu tools
- PalmDebugger supporting Gnu
- MacGCC

Developer Tools

Palm OS® Emulator (Poser)

- Plug-in support (component architecture)
- Code coverage
- Debugging displays
- Scripting samples
  - Perl
  - Visual Basic
- Shipping debug ROM files
- Sound support

Developer Tools

PalmSource 99

Board of Palm Programmers

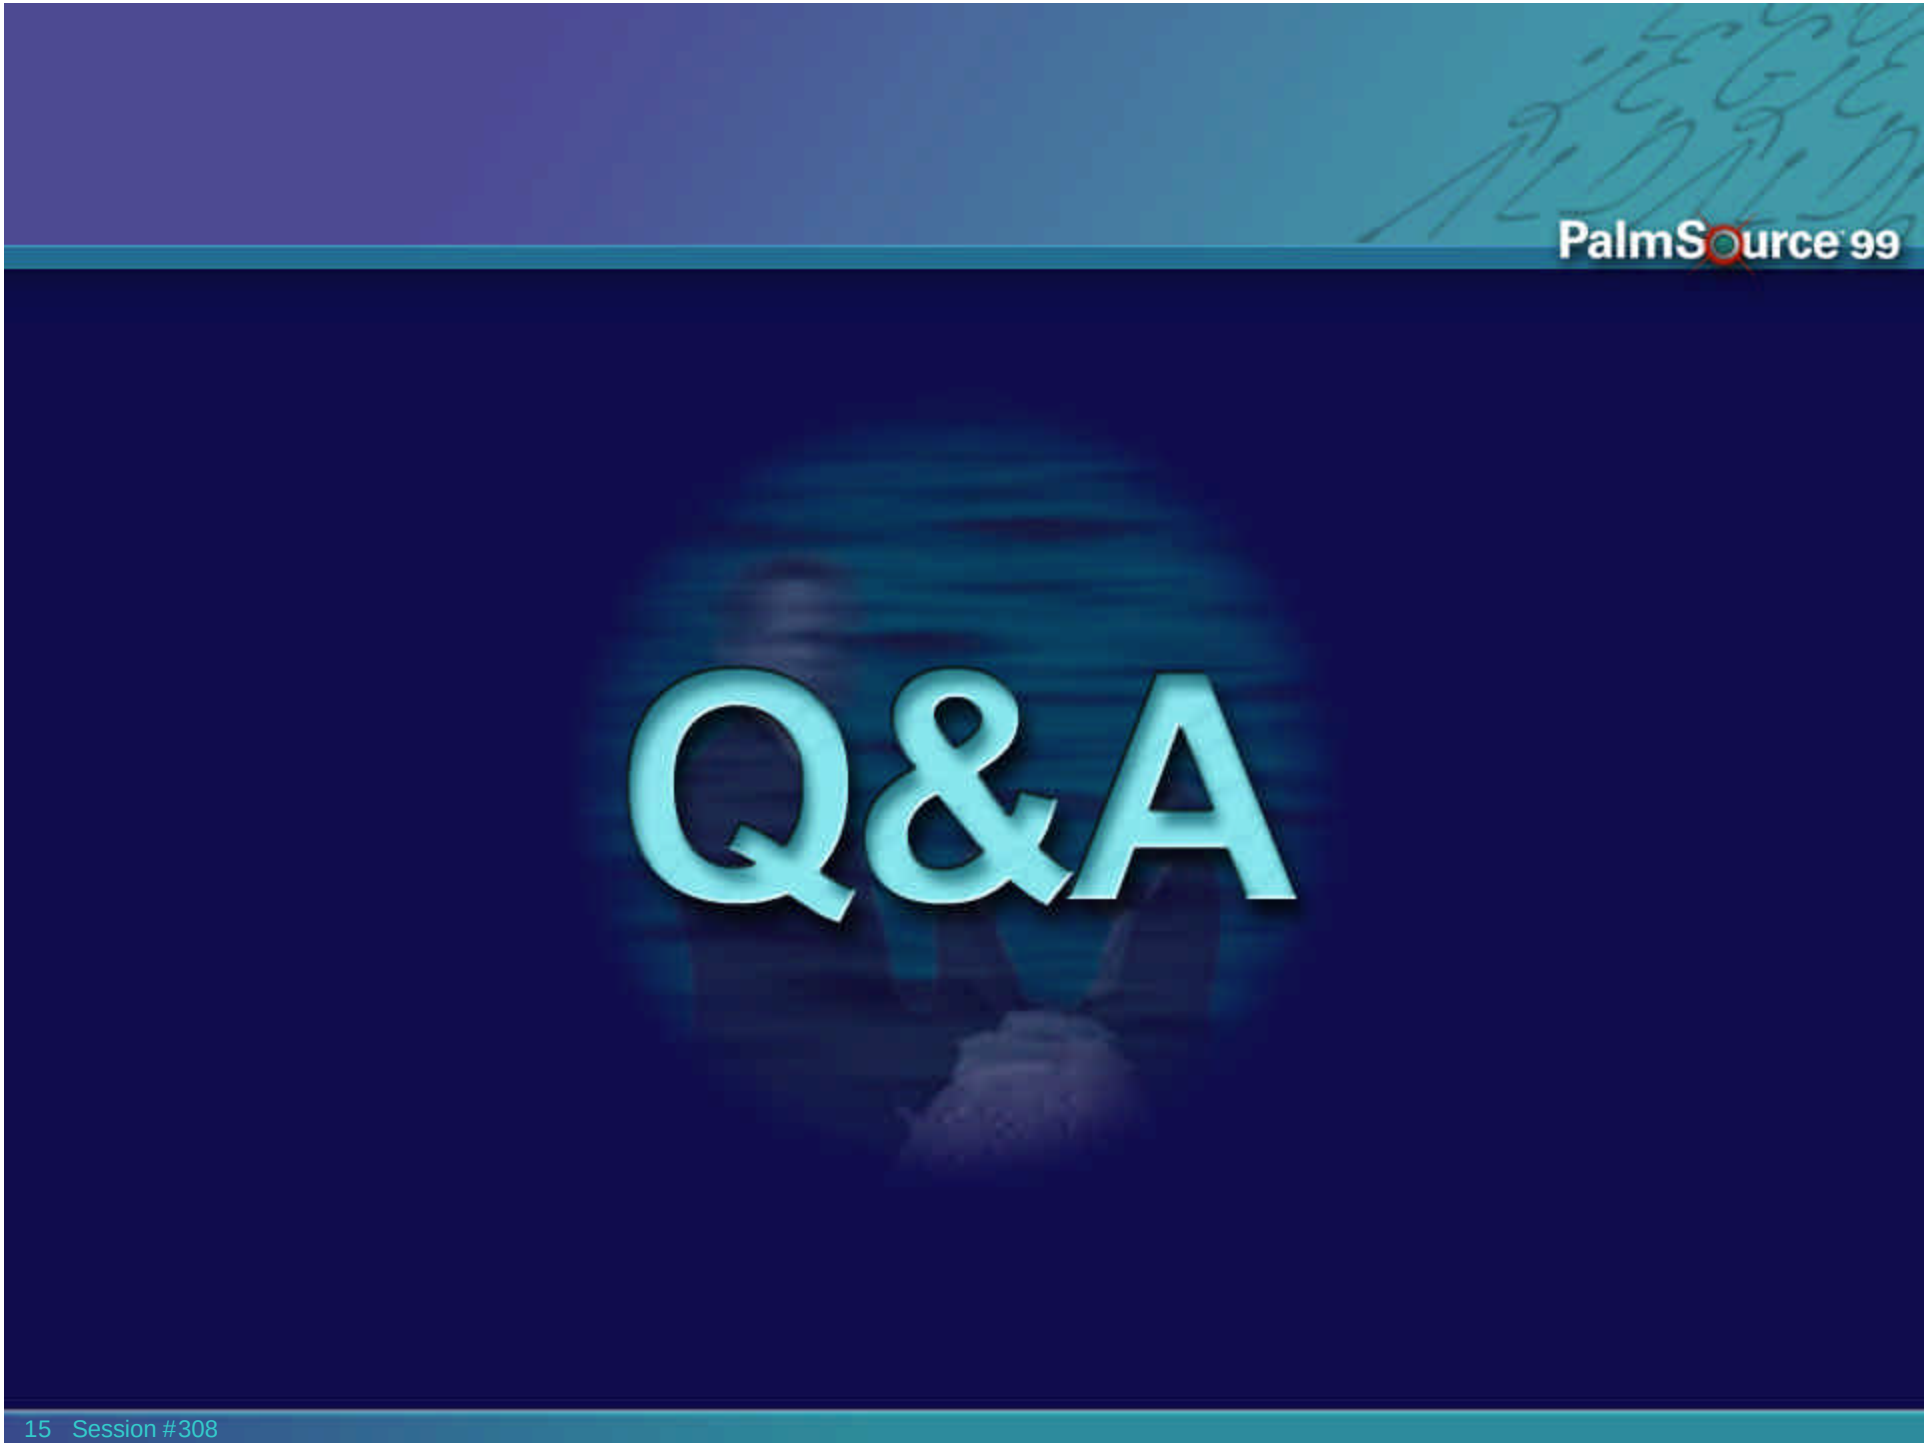

- Small group of third-party developers/licensees
- Under NDA
- Direct input to Palm OS Tools Group
- Quarterly get togethers (punch and pie)
- Involvement with pre-release tools

Developer Tools

PalmSource 99

Report card from last year

- We Did:
  - Closer relationship with Metrowerks
  - We took on the Gnu tools inside
  - Windows PalmDebugger
- We Didn't:
  - No simultaneous release
  - No debug ROM files on CD
  - No Windows Simulator
  - No PalmRez command-line
