Back to Wireless

PalmSource 99

Should we even be talking about wireless?

Let's Talk About Solutions

PalmSource 99

- What are customers asking for?
  - "Gimme one device"
  - "Put that organizer and info access stuff in my cell phone, and I'll write you a check"
  - "Where's the nearest GAP? I need more cargo pants"
- Palm Shagmeister Rule #1
  - Give customers what they need, not what they ask for

Says It Right Here in the *NY Times*

PalmSource 99

The New York Times

May 20, 1999

... Joe Sipher, director of 3Com's wireless products division, argues that the whole notion of developing all-in-one wireless devices that combine the functions of organizers, cell phones and Web browsers is fundamentally flawed. While the new Palm VII will offer wireless connections to the Internet, Sipher said it would not try to be all things.

"Unlike Microsoft, we don't want our operating system running set-top boxes or toasters," he said. "And as for these convergence products, they've been tried before and failed. Customers keep saying they want one device that does everything, but the truth is the attributes that make a great phone do not necessarily make a great data device and vice versa."

I WAS WRONG!!!

PalmSource 99

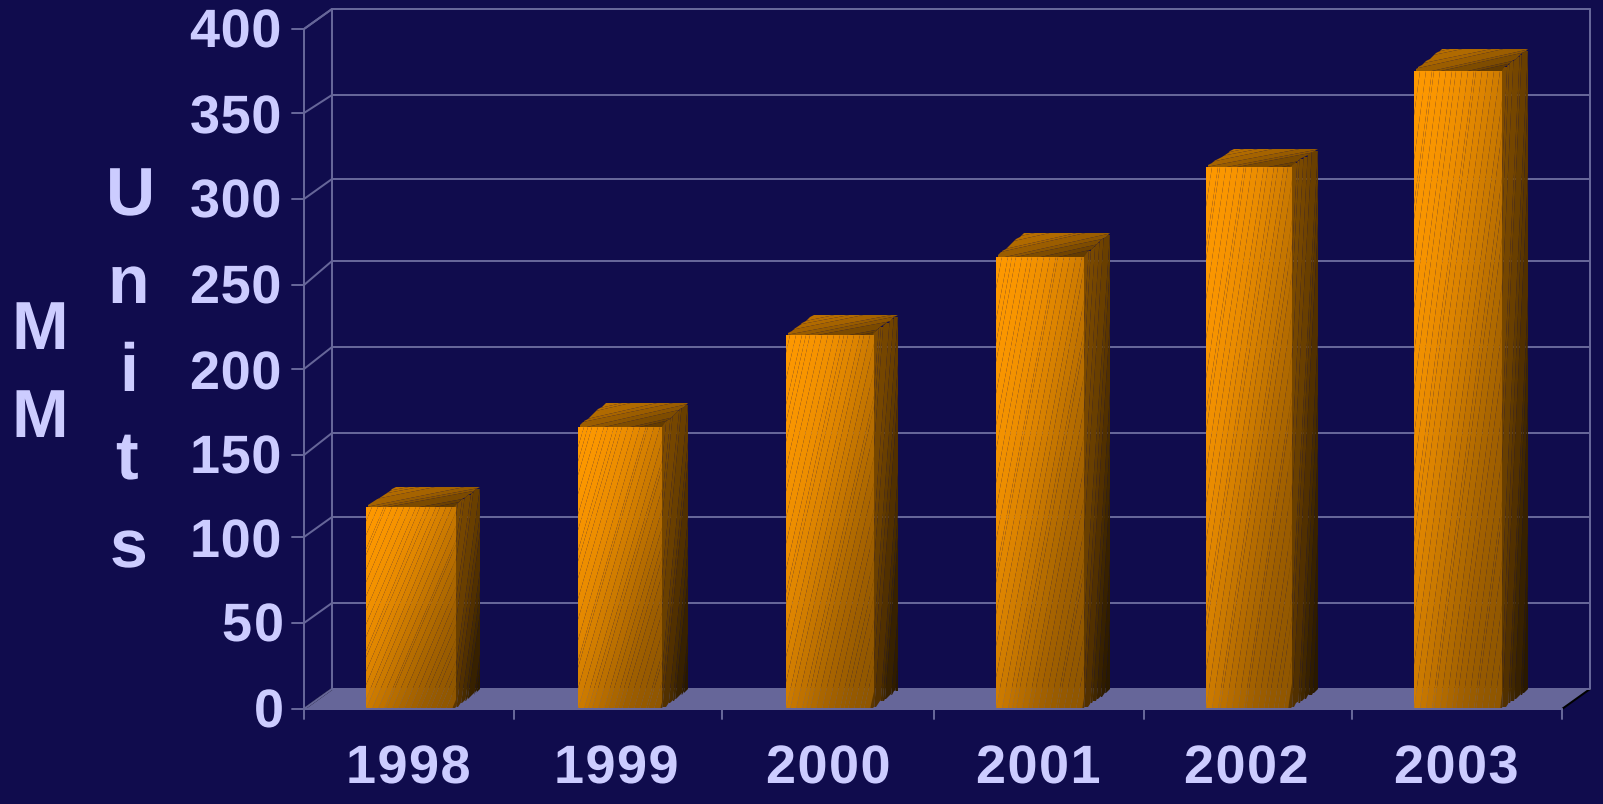

Palm Shagmeister Rule #2

Don’t be afraid to admit your mistakes

It's Big, Baby…Yeah!

What Are the Opportunities?

PalmSource 99

- Phone UI's are as notoriously bad as VCRs
- People don't get the most out of their phone…
  - Calling features
  - Phone book
  - Basic organizer features
  - PC synchronization can help
- You can't add applications to today's phones

Where Is Palm Positioned?

PalmSource 99

Critical Success Factors

PalmSource 99

- Device size and weight
- Simplicity
  - Activation
  - Usage
  - Application and content development
- Leveraging the PC or the net for the hard work
- Power management (battery life)
- Valuable content

Does that Mean Data Only Is Dead?

PalmSource 99

Coupled

...

Collaborative

Integrated

No way.
Different segments will require different solutions

Opportunities for the Palm Economy

PalmSource 99

- More units baby, yeah!
- Filling major gaps
  - Software
  - Hardware
  - Services
- You gotta pick the winner

Palm Shagmeister Rule #3

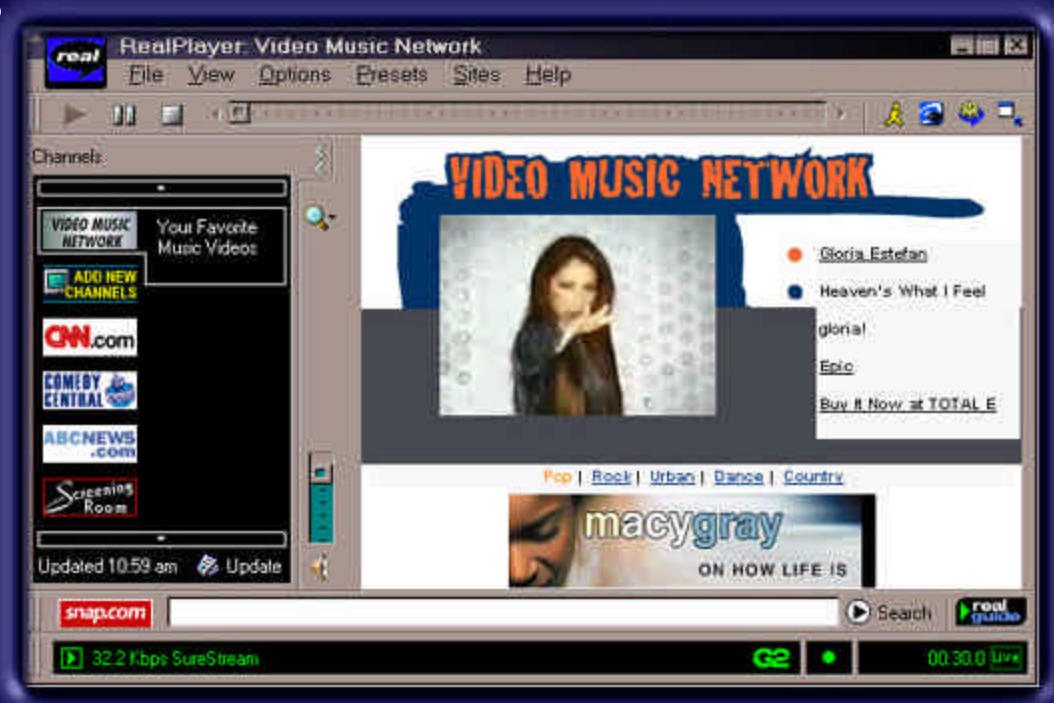

PalmSource 99

Change gears whenever the hell you want

Internet Trend

PalmSource 99

- Bandwidth coming to the masses
- Breeds
  - More sophisticated content
  - New applications

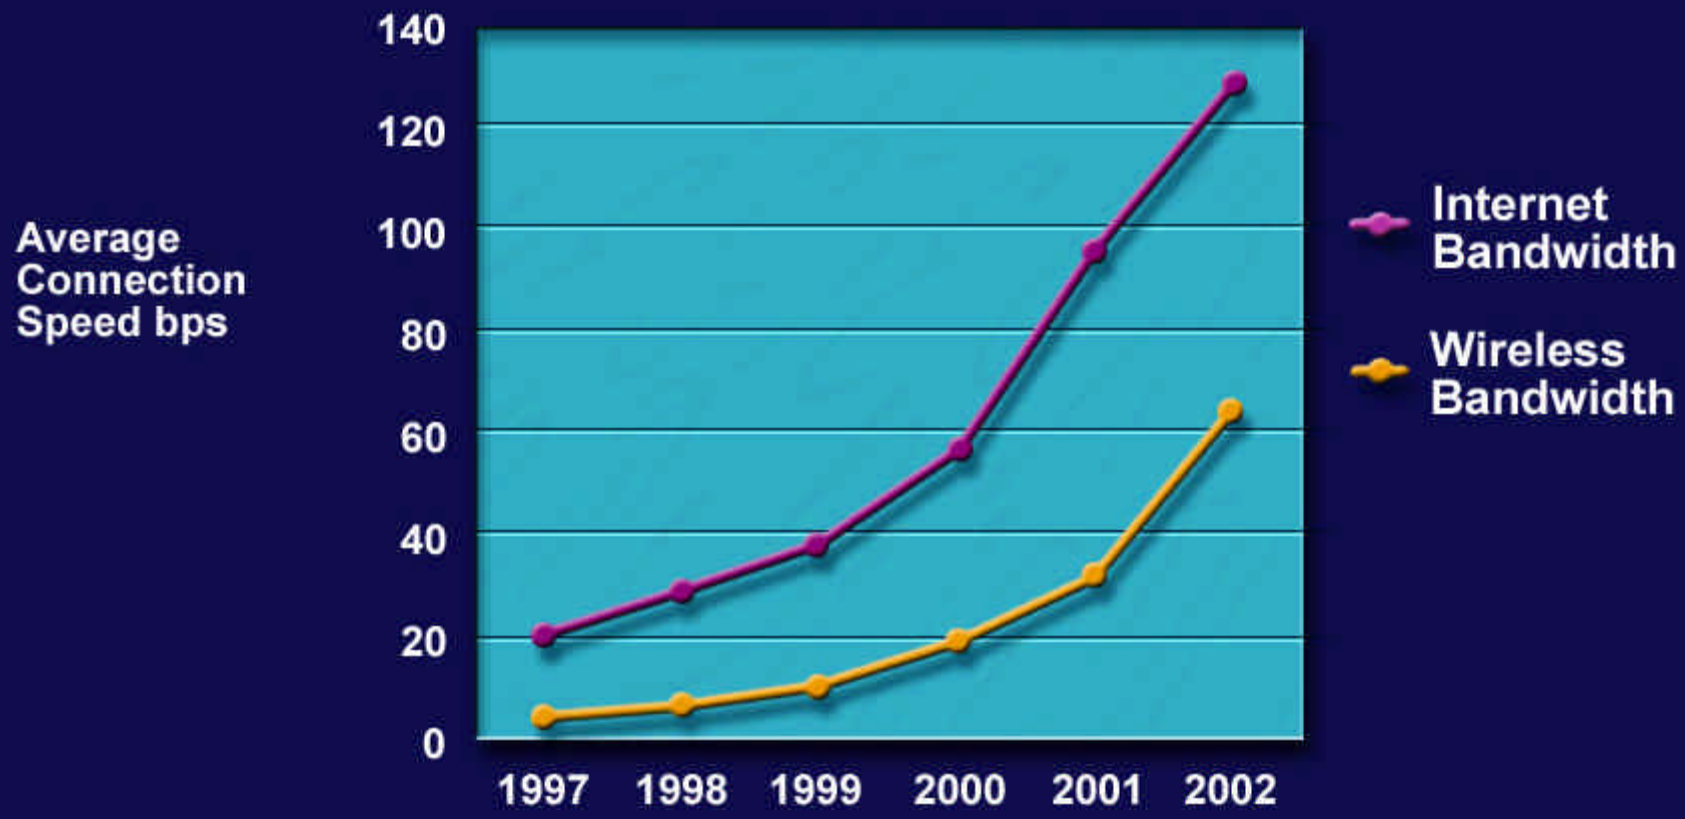

Wireless Trend

PalmSource 99

- Bandwidth coming to the masses
- Breeds
  - More sophisticated content
  - New applications
- But they aren’t the same…

The Wireless Penalty

PalmSource 99

Implications

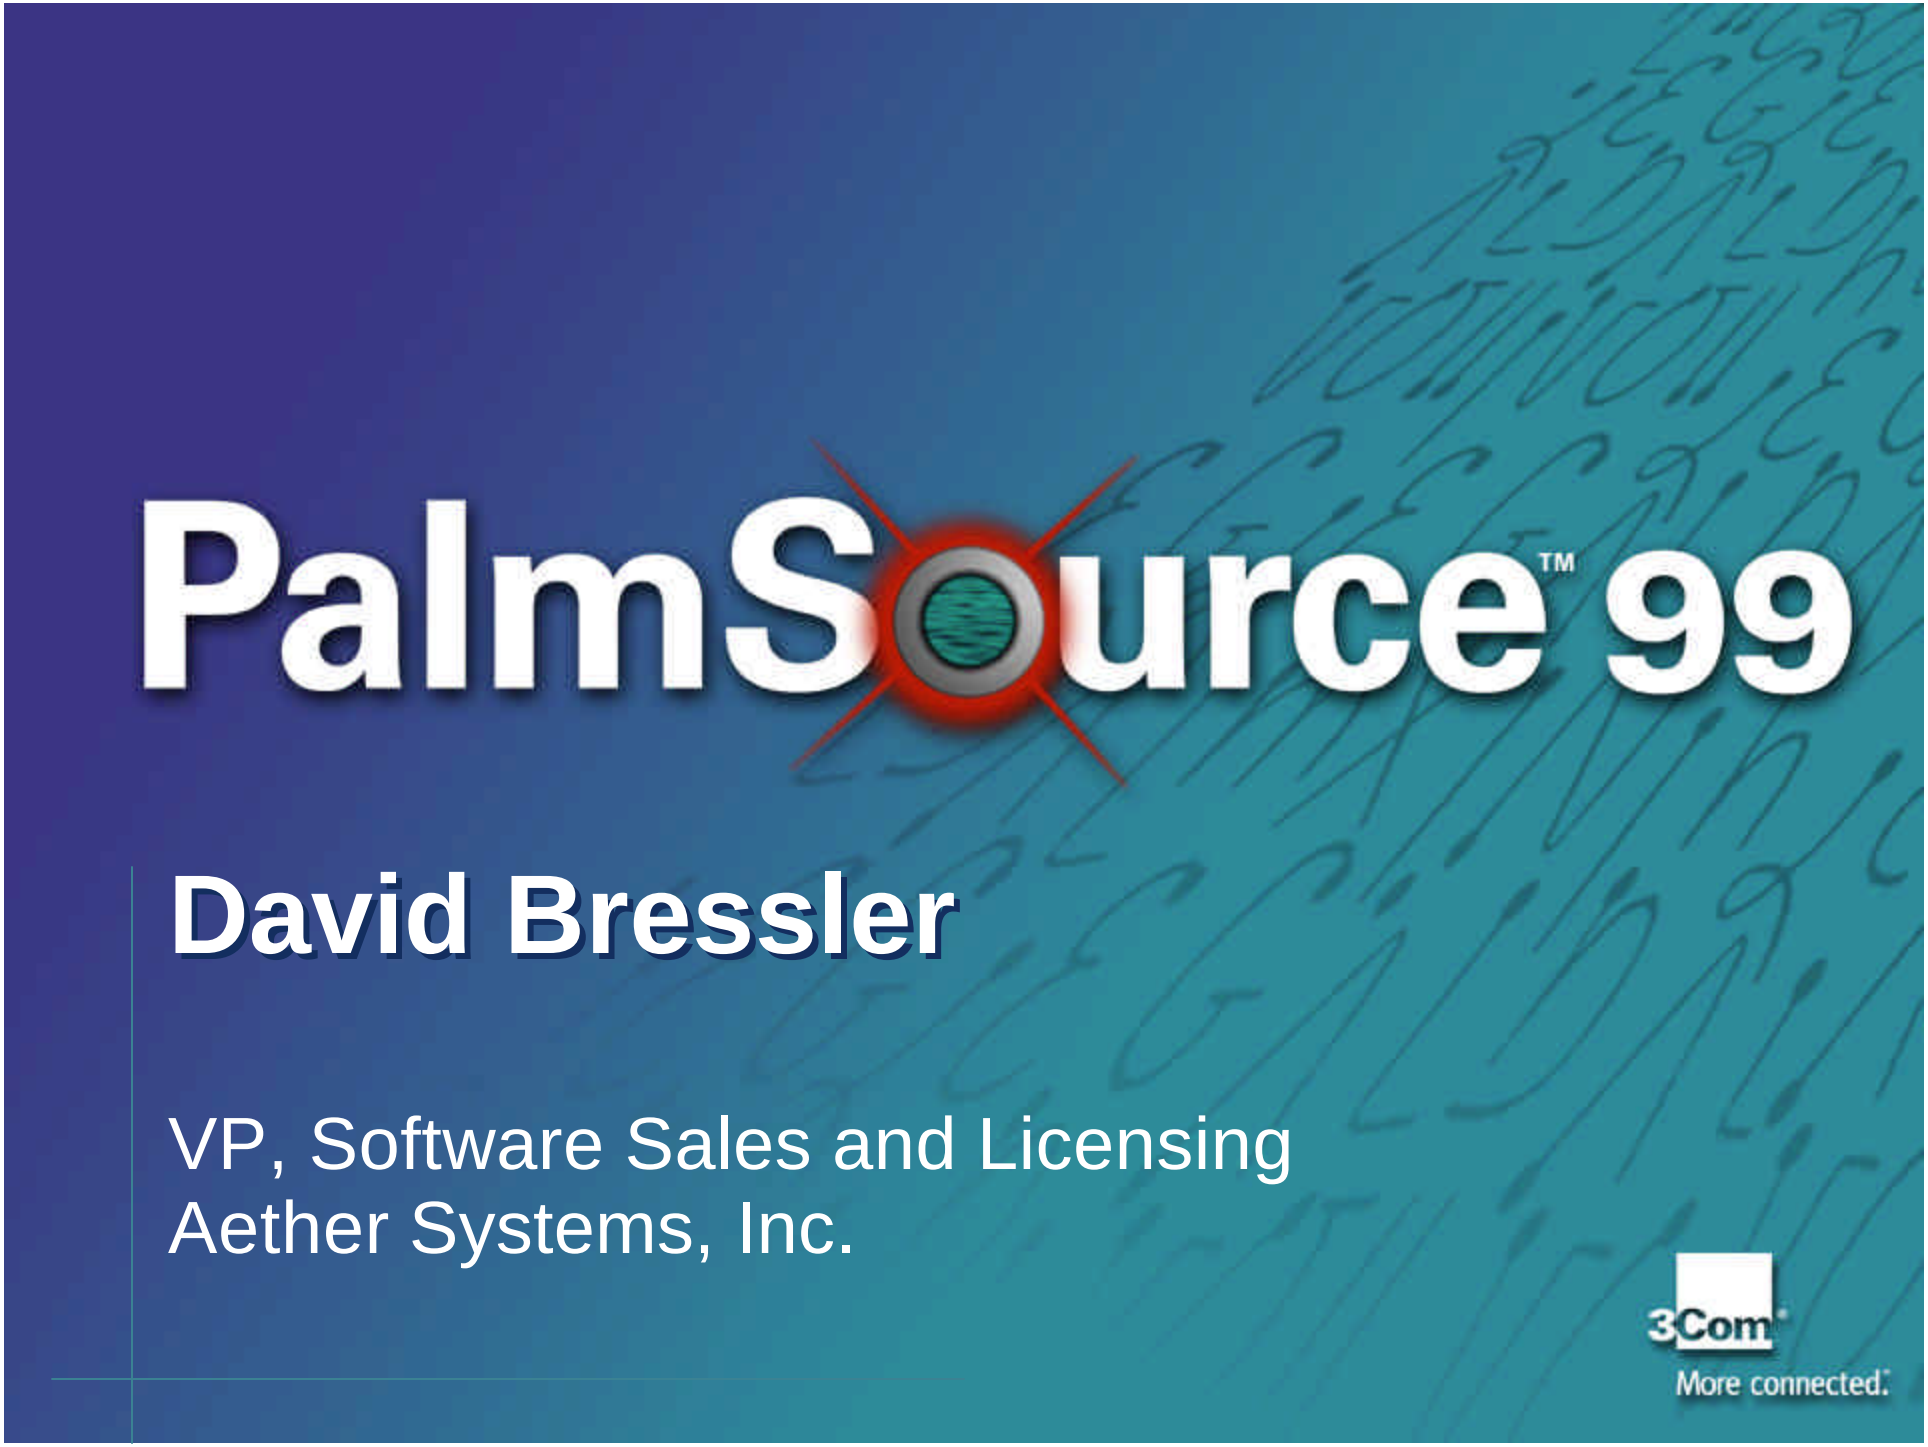

PalmSource 99

- Technologies required to fill bandwidth gap
- Today
  - WAP
  - Web clipping
- Tomorrow solutions for
  - Voice
  - Video
  - E-Commerce
- Opportunity for the Palm Economy

Panelists

PalmSource 99

- David Bressler, Aether Systems, Inc.
- Jerry Tu, Handspring, Inc.
- Scott Lincke, Palm Computing
- Mark Leiberman, Qualcomm
- Leo Greeley, Symbol Technologies
