InSync Online Overview

PalmSource 99

- Free subscription service inviting customers to voluntarily identify themselves and select information to receive
- Currently 350,000 active InSync Online subscriptions…almost triple the amount of subscribers than last year!
- This is a worldwide program…70% US subscribers; 30% International subscribers
- Each subscriber has completed a personal profile, so your message will reach the best prospects

Developer Program Costs

PalmSource 99

- InSync Online is cost effective per message
  - InSync Online—$10–50/M
  - Direct mail—$150/M
  - Other electronic newsletters—$50/M
- InSync Online gets results
  - 40% of our subscribers have purchased software and/or hardware as a result of InSync Online
  - Typical direct mail response, 1–2%

Summary

InSync Online and the List Rental developer program will give you more opportunities to communicate to your target audience, Palm customers, in a timely and cost effective manner

TRGpro Handheld Computer

- Industry standard expansion, CompactFlash
- 8MB RAM and 2MB of On Board Flash
- Flexible RAM/ROM configurations
- Voice quality sound output
- Radio ready design
  - 930 MHz (Pagers)
  - 2.4 GHz (Bluetooth)
- Palm Computing® Platform Compatible

Differentiating Features of the TRGpro

PalmSource 99

- Industry standard secondary storage
- File system APIs
- FlashPro APIs
- Memory expansion
- Improved audio

Targets

PalmSource 99

- Industries
  - Healthcare
  - Sales and field force
  - Logistics, i.e., shipping, warehousing
  - Government/education
- Mobile professionals
  - Physicians
  - Sales force, field force
  - Government inspectors

What Is Compelling for Developers?

PalmSource 99

- Industry-standard portable media
- Improved audio
- Enterprise applications
- Does your compelling revenue producing application require
  - Portable media?
  - Or improved sound?
- Enterprise volume purchases

Targeted Development Opportunities

PalmSource 99

- Data intensive applications
- Wireless
- Launching applications and data stored on Compact Flash

TRGpro Software Overview

PalmSource 99

- TRG OS extension APIs
  - CF hardware interface
  - FAT File System (FFS)
  - Enhanced audio
- CFpro
  - Application for browsing CF storage cards
  - Moves and copies files and databases
- FlashPro and APIs

Development Environment

- All code samples included in SDK compiled using CodeWarrior Release 5
- TRGpro SDK samples
  - CF library
  - FFS library
- The TRGpro Developer's Kit is available from the TRGpro website or in print at our booth
- CF card vendors can develop drivers for TRGpro to improve market opportunities

TRG Enterprise Deployment Tools

PalmSource 99

- IMAGEpro
  - Creates customized Flash image
  - Enables enterprise clients to create custom OS and Flash-based applications
  - Easy deployment to workforce
- SFApro (Self Flashing Applications)
  - Automatic load into Flash
  - Replace obsolete version
  - Easy deployment to workforce
