Palm Solution Provider Program

PalmSource 99

Membership Growth

January –- October 99

The Growth

- Symbol Technologies, Inc.
- QUALCOMM Incorporated
- Palm Computing, Inc.
- Handspring, Inc.
- TRG Products, Inc.

PDS Vision

The Palm Economy is the fastest growing, most successful, vibrant developer community created through an open network of mutual collaboration and cooperation among the Licensees, the Platform Organization, and the Developers.
The likes of which has never been seen before.

The Palm Economy

PDS Goals

- To have a seamless support model for Palm platform developers
- Issue conflict resolution is done by the platform and licensees and not developer
- Consistency in documentation, training, and support where possible
- Develop new markets for licensees

Challenges

- Response time for issue resolution
- Assessing and attending to market-developing opportunities
- Coordination with licensees

Action Plans

PalmSource 99

- Issue resolution
  - Increasing the headcount at Development Technical Services
  - Partnering with Developer Support organizations
  - Independent Developer Association

Action Plans

PalmSource 99

- Assessing and attending to market development opportunities
  - Assess new markets for handheld opportunity
  - Evangelize platform into emerging markets
  - Recruit and support market-focused solutions and development
  - Increasing headcount in Market Development

Action Plans

PalmSource 99

- Coordination with licensees
  - Support model for escalation of issues
  - Market development services to licensees
  - Coordination of Developer Services
