Why Should I Take My Application PLATINUM ?

PalmSource 99

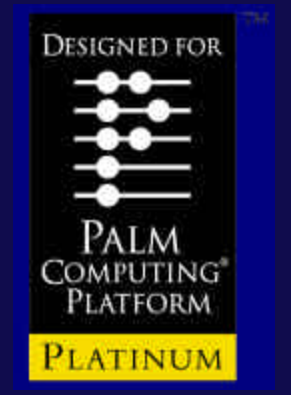

- Marketing Benefits
- Technical Benefits
- User Benefits

PLATINUM Marketing Benefits

PalmSource 99

Marketing Benefits!

- "Designed for the Palm Computing® Platform Platinum" Logo
- Rotating banner ad on Palm Computing Software and Products web page
- Solution featured on Platinum Solutions page on Palm Computing website
- Priority Marketing and Technical Support
- Priority invitation to participate in Provider Pavilion at Palm Computing trade shows

PLATINUM Marketing Benefits

PalmSource 99

More Marketing Benefits!

- Opportunity to participate in Platinum Software Center hosted by Beyond.com
- Opportunity for Enterprise Co-Marketing Funds
- Quotes for your press release from Palm executive
- Reduced rates for marketing programs
  - InSync Online
  - Customer list rental
  - Affinity Publishing's Software and Resource Guide

PLATINUM

Technical Benefits

PalmSource 99

Technical Benefits!

- A third-party company, Quality Partners, tests your solution following a strict and comprehensive test suite
  - All solutions have to meet a standardized and Palm Computing approved test
  - External, but confidential, quality and reliability testing solution for your application or conduit
  - Ensure your products quality and reliability is adequate

User Benefits

User Benefits!

- User recognizes the Platinum logo and knows they are getting a tested and trustworthy solution
- Platinum solutions meet certain user interface guidelines so that users don't have to learn new process
- Users interpret that Platinum solutions are "safer" to have on their device/computer

What Is Involved in Taking an Application PLATINUM

PalmSource 99

- Contact Quality Partners at 925-484-2527 and set up an appointment for your solution to be tested. See http://www.qpqa.com for more information
- Get prepared for the TEST!
  - Download the Palm Computing Platinum Logo Test kit from http://www.qpqa.com/palm/palm.index.html

What Can I Do to Improve My Chances of Becoming PLATINUM

PalmSource 99

- Implement the Platinum standards in the design phase
- Go through the various test suites with your solution and make sure it meets the requirements—TEST TEST TEST
- Verify that your application will make it to at least one million Gremlin events
- Take the Pre-Submission test at Quality Partners
- Call Quality Partners with any questions you may have regarding your solution or even have a customized test developed

Top 5 Failures During Handheld PLATINUM Testing

- Automated Gremlins test fails
- Lack of shortcuts for appropriate menu items
- Documentation content does not match functionality of product
- Application obscures the Graffiti status indicator area
- Lack of support for cut, copy, paste and undo gestures and menu options

Top 5 Failures During Conduit PLATINUM Testing

PalmSource 99

- Leaving files and/or empty folders on desktop or in registry after uninstall
- Verify maximum length data entry fields can be synchronized in full
- Unsuccessful recovery when serial link is cut, usually resulting in data loss
- Record level conflicts
- Proper handling of HotSync operation algorithm
