AvantGo Overview

PalmSource 99

- AvantGo: delivering web-based content and enterprise applications to handheld and wireless devices
- Market for handhelds estimated to grow to $1B by 2003 with introduction of smartphones
- Strategic platforms currently supported include first: Palm Computing, …

AvantGo Goals in Europe

PalmSource 99

- Engage European market for both corporate and local benefits
- Build world-class Europe-focused content for handheld and wireless devices
- Extend the availability and support of the AvantGo products and services

Going to Europe Choices

PalmSource 99

- Go it alone
  - High risk and lengthy process
  - Distracts management from US operations
- Use distributors
  - No control
  - Objectives not aligned
- Partner with Protégé
  - Quickest time-to-market
  - *Managed risk* approach
  - Perfect alignment of interests

What Is Protégé?

PalmSource 99

- Operational partner in a European expansion
  - Responsible for building European sales
  - Hires managerial and support staff
  - Provides back office support (financial, legal, etc)
- Perfect alignment between US and Europe
  - Protégé works for performance-based equity
  - Full control remains with the US headquarters
- Protégé offers
  - Knowledge of all European local markets
  - Help from other Protégé vendors (leads, etc.)
  - Industry relationships
  - PSWeb, professional services arm
  - Proven track record (Vignette, NetGravity, Kana)

AvantGo/Protégé/Palm Partnership

PalmSource 99

- Protégé exploits existing AvantGo relationships in US (3Com/Palm)
- Protégé has relationships with key AvantGo customers and partners in “Europe”
- Protégé has sufficient breadth and depth to move instantly into market engagement
- Key achievements to date (Palm specific)
  - Millennium Project
  - British Gas (big enterprise project)
  - Financial Times (ft.com) (big content project)
