BELLSOUTH®

# Q From pqa-dev-forum:

When I run a PQA on my Palm VII near my computer, the monitor flickers and my cable modem drops the Internet connection. Does the Palm VII have a problem with RF leakage? …

# Core Network: Mobitex

- **Designed for wireless data**
- **Pure packet data**
  - No overlays
  - Inherent security
- **Built for international deployment**
  - 22 countries
  - Roaming and portability

**All DIGITAL**

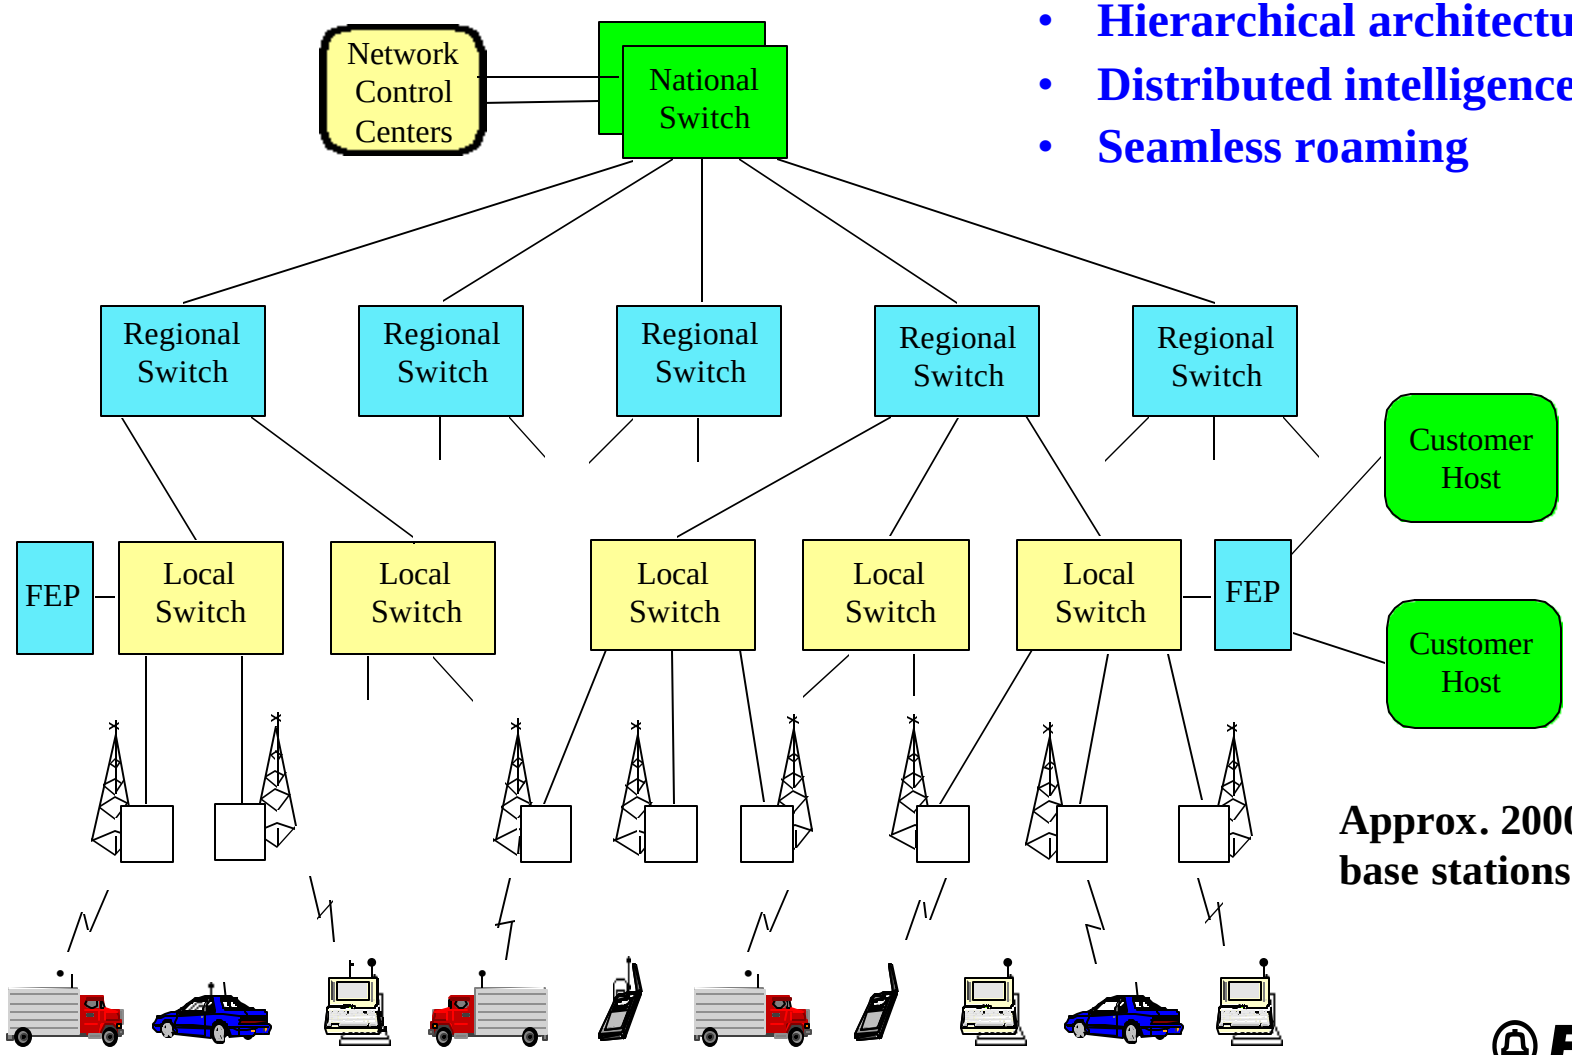

- ➡ Low Latency
- ➡ High Reliability
- ➡ High Availability
- ➡ Expanded Coverage
- ➡ Backwards Compatibility

BELLSOUTH®

# Mobitex System

PalmSource 99

- **Integrated nationwide system**
- **Hierarchical architecture**
- **Distributed intelligence**
- **Seamless roaming**

**80 switches**

**Approx. 2000 base stations**

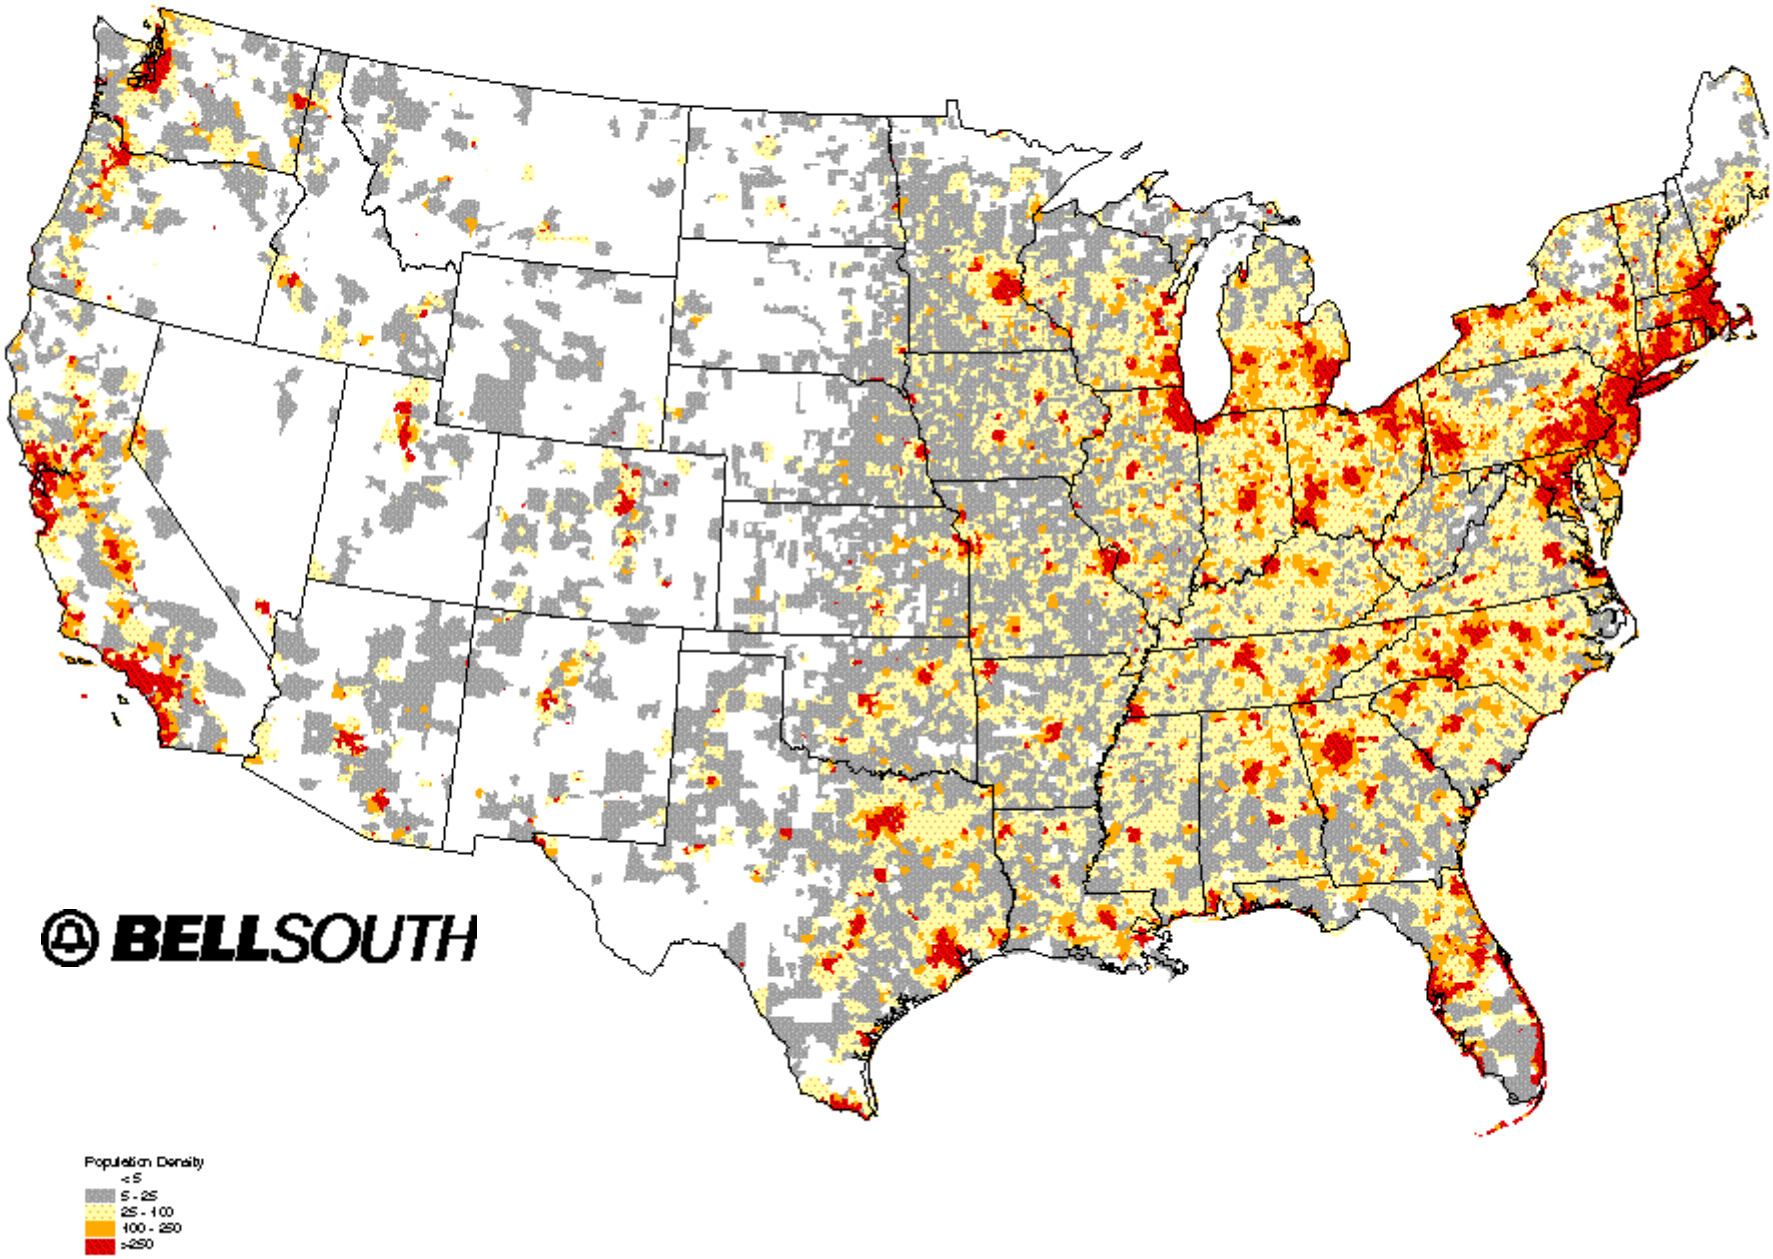

BELLSOUTH®

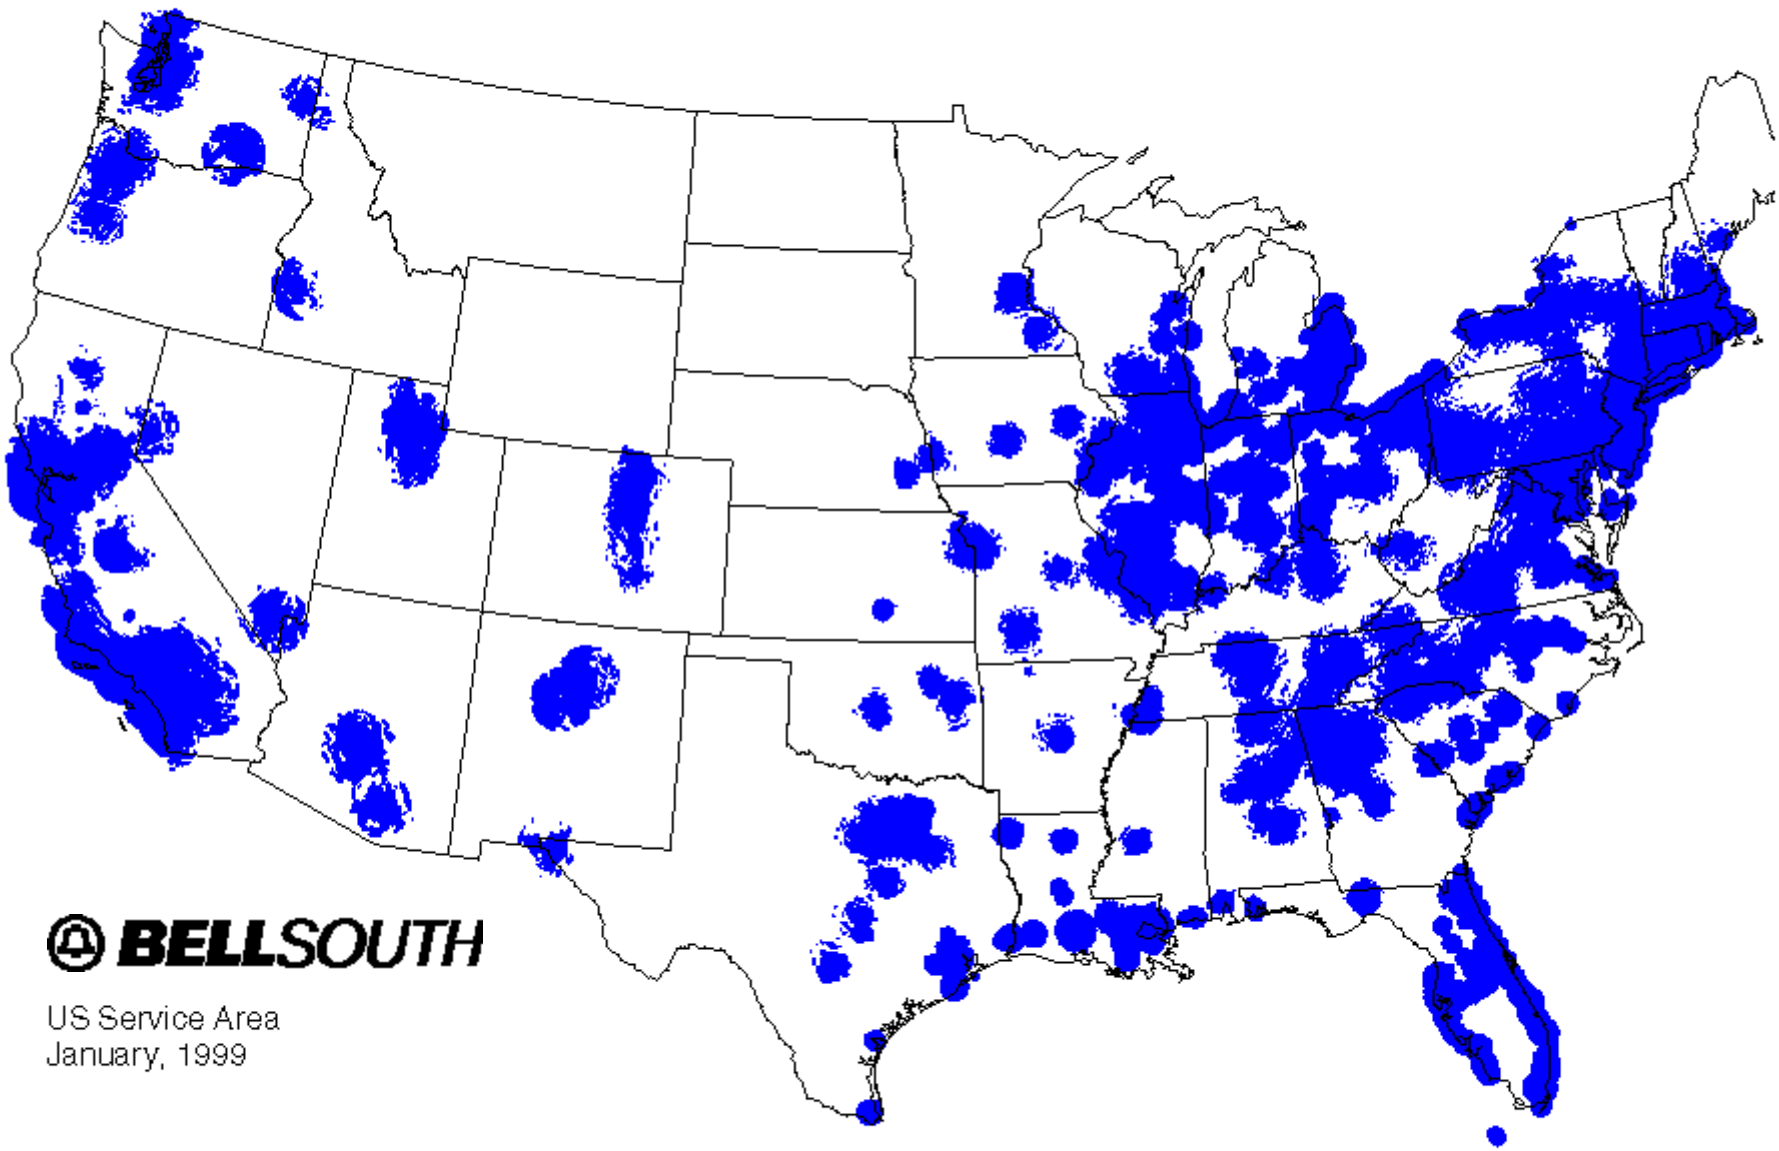

# Mobitex Basic Characteristics

PalmSource 99

- 8 kbps data rate in 12.5 kHz radio channel
- Seamless system-wide roaming
- Power-saving protocol
  - Long portable unit battery life
  - Best in industry
  - Improved 6–8 times in 1998
- Cellular frequency reuse
  - Capacity expansion capability
  - Efficient spectrum utilization
- Current plans to support 7 million users in next 8 years

# BSWD Mobitex Coverage

PalmSource 99

- **To achieve comparable one-way paging coverage**
  - **New base station software technology enhancements**
    - Doubled footprint of base stations
    - Entire network upgraded in April 1998
  - **Additional base station deployment**
  - **Frequency Transmit Repeaters deployed**

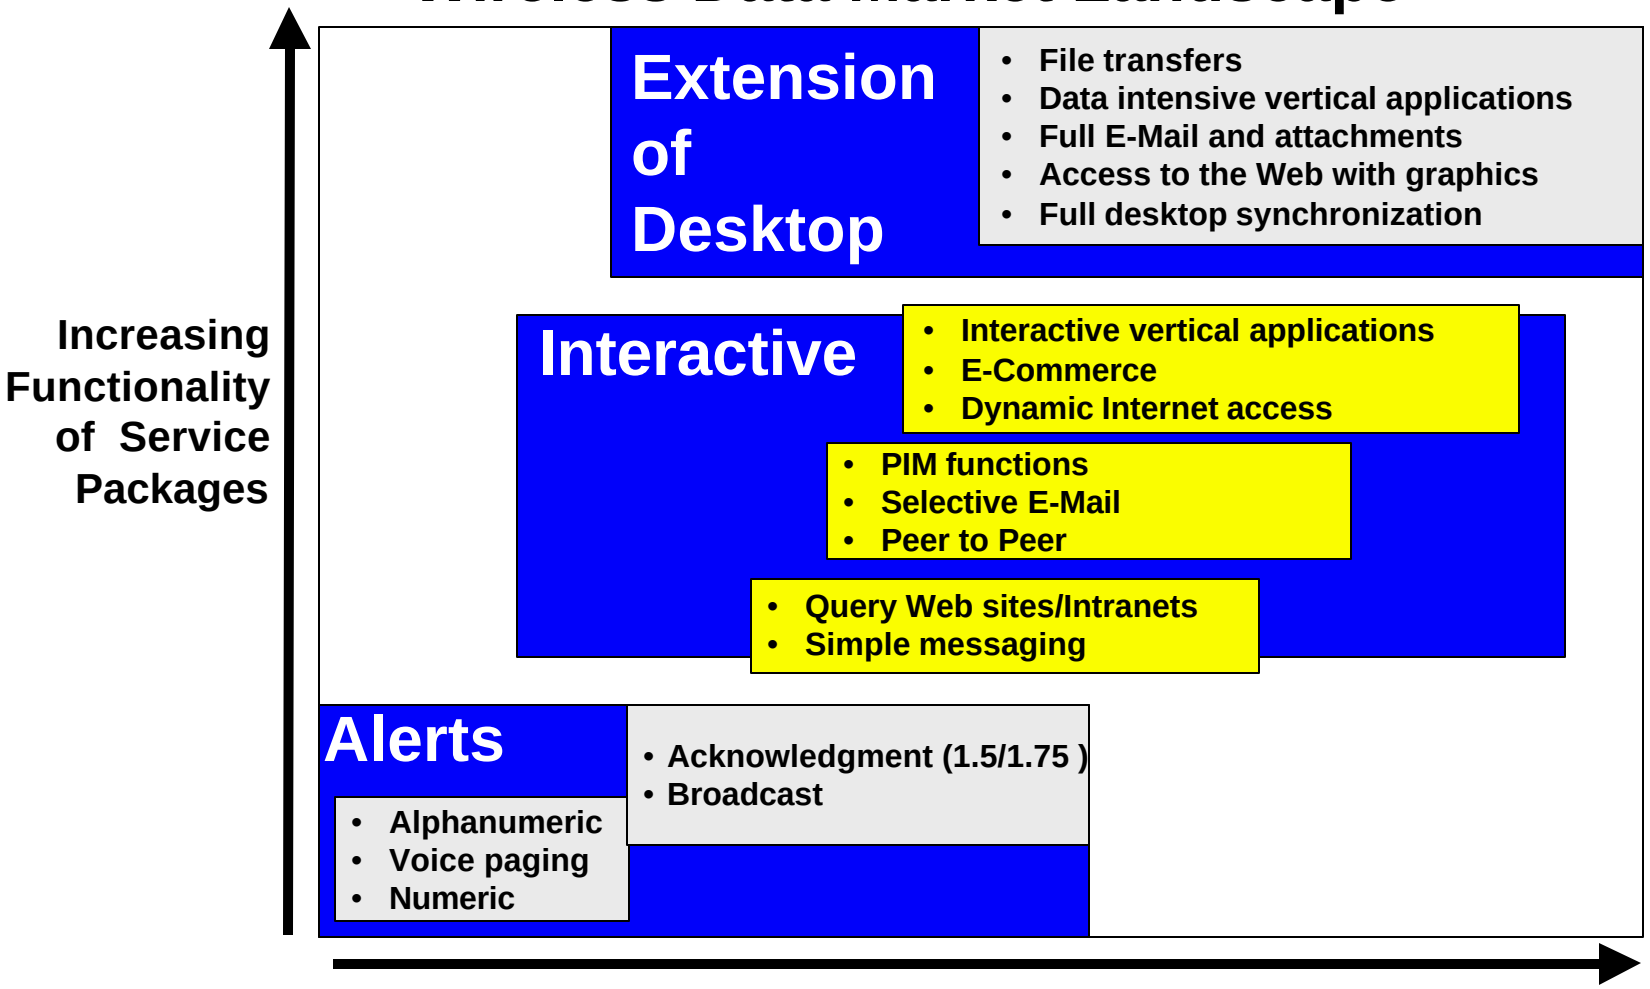

| | MSAs | People | Additional Base Stations Deployed |
|---|---|---|---|
| **1998** | **112** | **116 million** | **505** |
| **1999** | **34** | **35 million** | **300** |
| 2000 | 120 | 49 million | 500 |
| TOTAL | 266 | 200 million | |

- **Personal Applications**
  - **ThinAirMail PQA**

# ThinAirMail

- **Emphasis: personal E-mail**
- **Compromise-breaking PQA**
- **Free from palm.net and www.thinairapps.com**
- **8th most popular PQA on palm.net**
- **Revolutionary User Interface**
- **1,000+ users on version 1.4**
- **Support for**
  - **Major ISPs via POP3 and IMAP, Hotmail, Yahoo**
  - **ICQ Paging**
  - **NNTP**

# ThinAirMail Is Efficient

- **Efficient and fast**
  - **Average inbox view 700 bytes (10 messages)**
  - **Messages viewed in 1k chunks**
  - **Average user session is 6k**
  - **Filtering down to the essentials!**

# Sessions and Security

PalmSource 99

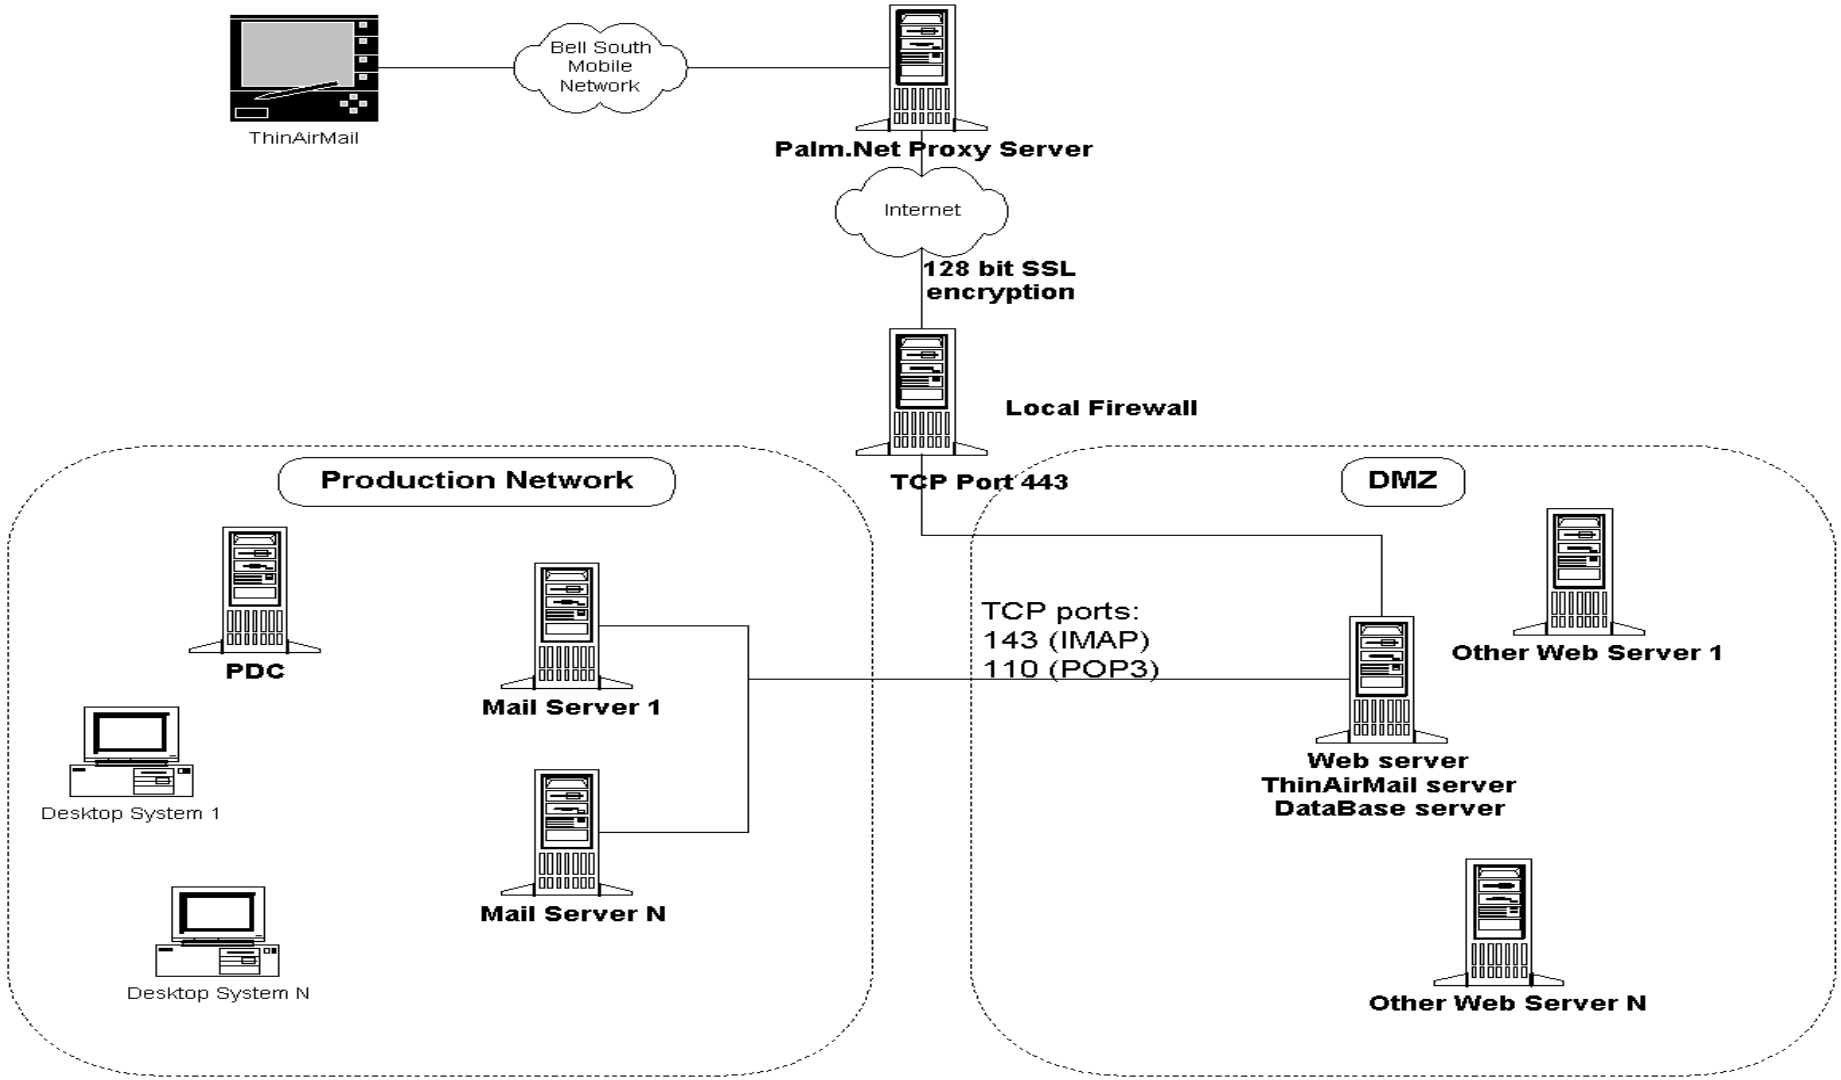

- **Each user is identified by unique device-id**
- **Session object maintains connection to e-mail server**
- **Account configuration stored entirely on server**
- **Uses HTTP/S as a transport layer**

# ThinAir Secure Server

PalmSource 99

- **Where We Are Going:**
  - **Active Access, No Synching!**
  - **Enterprise Server Support**
    - Microsoft Exchange (Calendaring!)
    - Lotus Notes
    - Open Standards Groupware (IMAP,NNTP,FTP)
  - **Comprehensive Security**
    - No data stored on device, HTTP/S, 3-DES
