handspring

Wireless Modules in Development

One-way Pager

Two-way Pager

Bluetooth Radio

Wireless WAN Modems

Wireless LAN Modems

Cellular Telephone

handspring

Appliance vs. PC

Information appliance

- Easy to use
- Does one thing really well

…but it's limited…

handspring

Appliance vs. PC

Personal computer

- Developer leverage
- Flexible tool…

…but it's complex…

handspring

Best of Both Worlds

Visor: simplicity of an appliance +
the expandability of a PC

handspring

Marketing and Distribution

Handspring brand: target consumers

Partner for enterprise and verticals

Strong direct distribution: www.handspring.com

Expand to retail in early 2000

Expand internationally in early 2000

handspring

Summary

Large new market

Multiple Palm™ Platform players = great opportunities for developers

Handspring: leadership role in enhancing the platform for developers, and in selling devices
