Agenda

PalmSource 99

- Vision for the Enterprise
- State of the Market
- Segmentation
- Palm Initiatives
- Conference Preview

Vision

PalmSource 99

Handhelds will be standard issue within the enterprise, just like PCs and telephones…

…but line-of-business applications will emerge first

Businesses Want Competitive Advantage

PalmSource 99

- Increase revenue
- Decrease cost
- Make employees more productive
- Manage customers to ensure profitable relationships

Handhelds Improve Competitiveness

PalmSource 99

Handhelds eliminate the gaps in company information systems, improving…

- Data collection
- Data access
- Process management

Palm Computing® Platform Is the Leader in Handheld Computing

PalmSource 99

- Proven usability
- Greatest range of solutions
- Easiest to deploy and use
- Lowest implementation cost
- Best-in-class reliability and availability
- Best-in-class enterprise support

The Enterprise Opportunity Is Now

PalmSource 99

- The numbers don’t lie
- Key enterprise solution providers are on board
- Line-of-business applications are emerging

Storm Eye Institute

Hello World

BMW

Sonic Innovations

PeaPod

Frontline Now!

Common Attributes

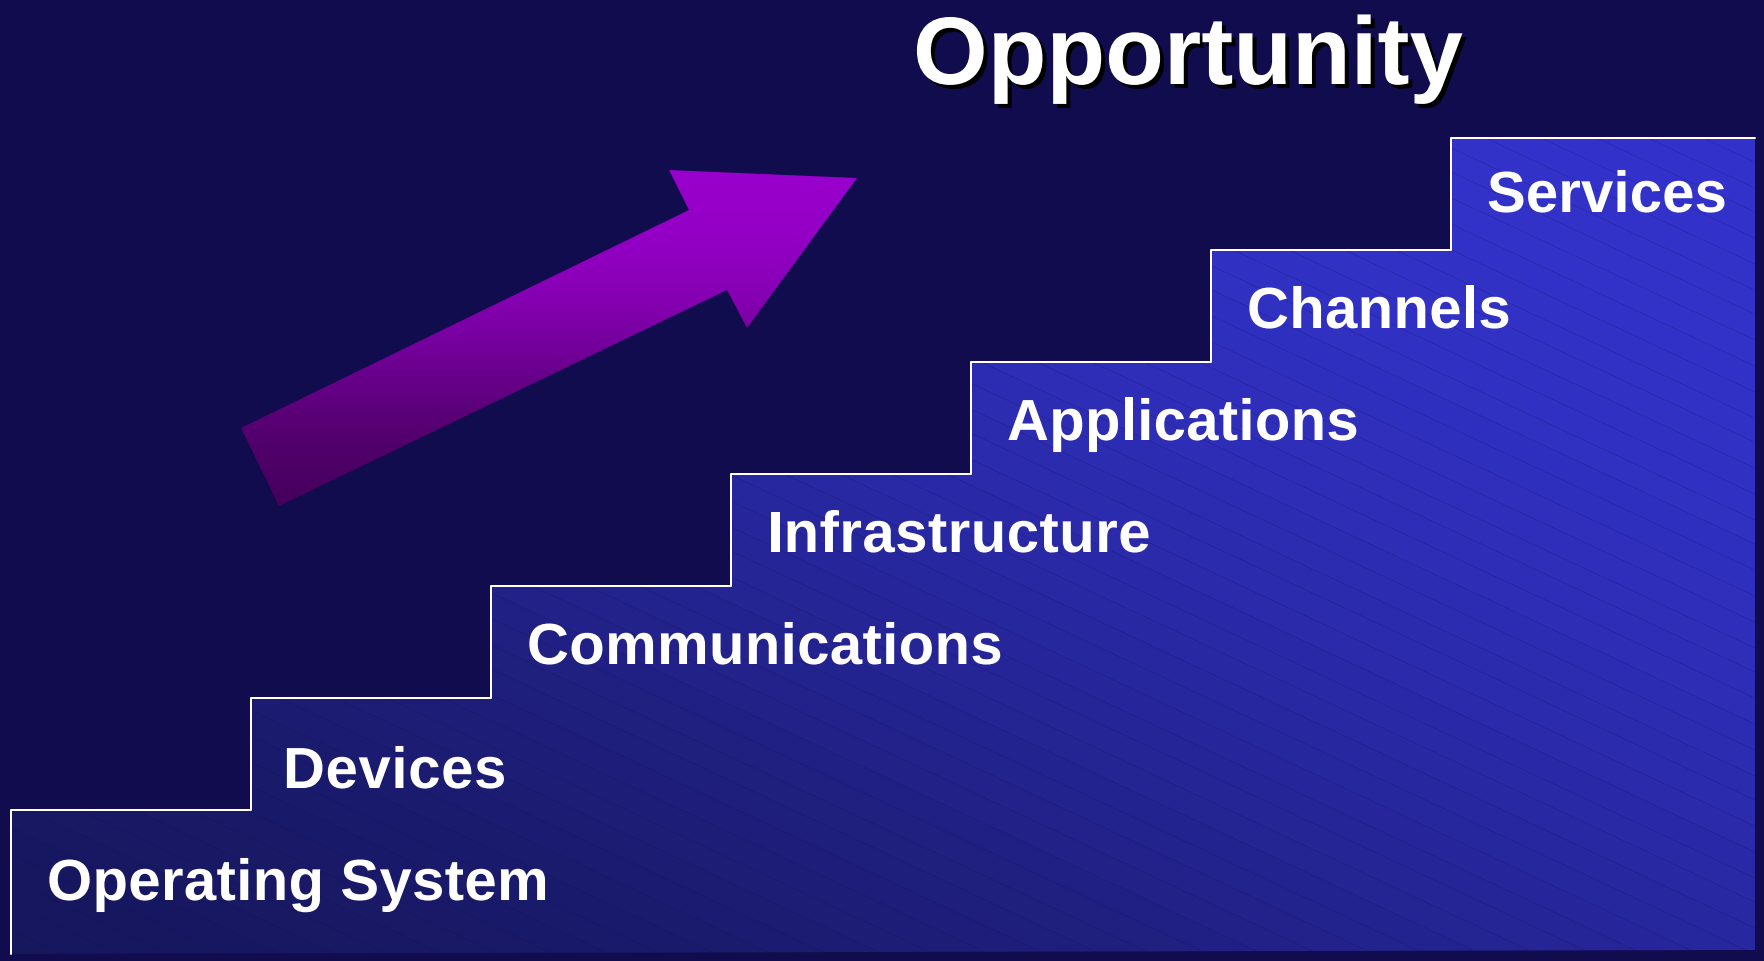

- Early deployments require internal champion
  - Technically-minded individual
    - Gets idea, develops idea—tinkering in off hours
    - Pushes implementation through organization
  - Business-minded individual
    - Generates broad business vision
    - Delegates within organization
    - Palm developer plays an important role
- Each project was initiated by exposure to a Palm Computing® platform device
- Implementation window ranged from 12–30 months

Enterprise Opportunity Still New

PalmSource 99

- Vast majority of purchases were individual decisions
- While line-of-business applications are emerging…
  - Deployments are small
  - Lack of whole product solutions drives need for customization
- Foundation elements needed to move market forward

Requirements to Move the Market

Strong Opportunity for Developers

PalmSource 99

You capture

65 to 85%

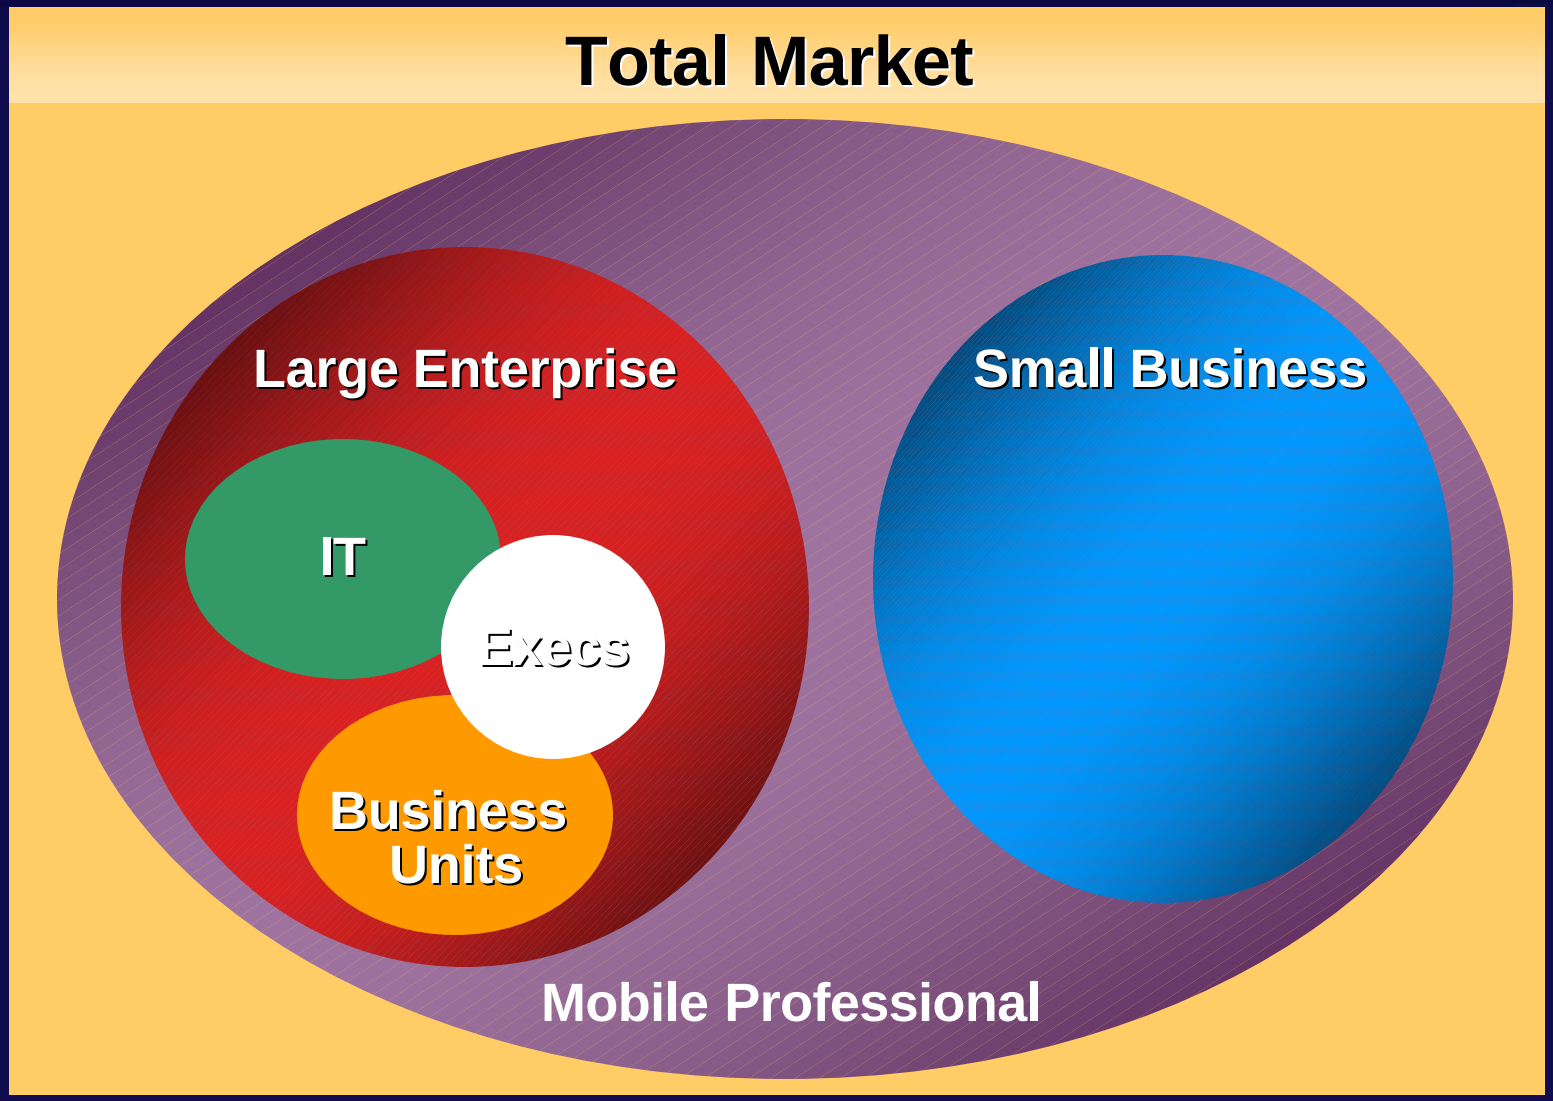

of revenue for LOB deployments
