Outline

- Enterprise opportunity
- Buying processes
  - Characteristics
  - Customer needs
- Shortening the sales cycle
- Resources
- Q&A

Enterprise Opportunity

PalmSource 99

- Potential market size
- Value proposition
- Business opportunity

Buying Processes

- Grassroots
- Standards
- Project deployment

Grassroots

- Decision process:
  - Individual purchases brought into work
- Channels:
  - Consumer channels—retail, web, NRO
- Applications:
  - Personal productivity
  - Synchronize with personal PC-based PIM systems
  - Adventurous souls—try to tie into e-mail, server-based groupware without IS support

Grassroots

- Customer Needs (individual basis)
  - Productivity software
  - Conduits to desktop applications
  - Hardware peripherals
  - Individualized training
  - Installation support
  - End-user support and information
  - Step up hardware service programs

Standards

PalmSource 99

- Decision process:
  - IS driven technology decision
  - Executive decision on funding
  - Economic buyer is lower in the company
- Channels:
  - Commercial channels—NRO, web, SIs/VARs, retail
- Applications:
  - Personal productivity tools
  - Groupware, e-mail
  - Advanced: remote access, e-mail/groupware server sync, security, wireless

Standards

PalmSource 99

- Customer needs (volume basis)
  - Acquisition/selection
  - Configuration/set-up
  - Applications
  - Training
  - Asset management
  - Security
  - Service and support
  - Back-up

Project Deployment

PalmSource 99

- Individual Champion

  - Technically minded individual in organization
  - Gets idea, develops idea—tinkering in the off-hours
  - Pushed implementation through the organization

- Executive Visionary

  - High-level individual generations broad business vision
  - Delegates within organization to implement vision
  - Palm developer plays a very strong role

GVO Research June 1999—commissioned by Palm Computing

Executive Visionary

PalmSource 99

- Customer needs
  - Professional services
    - Business case analysis
    - Prioritization
    - Technical feasibility
    - Process re-engineering
    - RFP generation/selection
  - Applications
  - Prototyping
  - Demo
  - Integration/deployment
  - Service and support
  - Application evolution

Outline

- Enterprise opportunity
- Buying processes
  - Characteristics
  - Customer needs
- Shortening the sales cycle
- Resources
- Q&A

Shortening the Sales Cycle

PalmSource 99

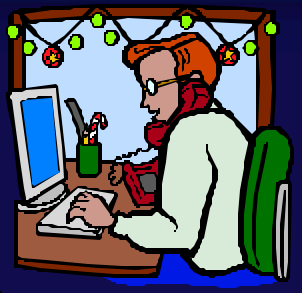

- Focus on whole product solutions
  - Identify contribution/strengths
  - Partner to deliver remaining components
- Ensure economic buyer involved
- Garner IS/IT support
- Test funding/commitment upfront
- Get involved early during project definition
- Emphasize early wins
