Channel requirements

Source: Annual market survey, 1998/Decision Tree Consulting Ltd.

Handhelds in the Enterprise, Europe

PalmSource 99

- The quality and training of the channels is more important than gaining high channel penetration
- Channels need to be motivated to sell handheld computing solutions
  - Application, integration and service revenues provide the profits
- Corporates are looking for a wide range of skills from the channels
  - It is the manufacturers' responsibility to train the channels or facilitate links with 3rd parties

Palm European Enterprise Strategy

Build an offer via a network of partners

- Define and deliver added value
- Inform and support our partners
- Take into account local specifics

Palm European Enterprise Strategy

PalmSource 99

Supporting developers

- Benefit from Palm's global program
- Identify and grab local opportunities
- Get visibility thanks to local actions

Palm European Enterprise Strategy

PalmSource 99

Supporting developers
Example: TGS in situ

- Assistance in selecting development environment
- Marketing support
  - Loaner units
  - Invitation to European Oracle User Group
  - PR activities

Palm European Enterprise Strategy

PalmSource 99

Working with Global Partners

- Leverage “global” developments
- Define and deliver an offer locally
- Work extensively with the GPPs
- Generate demand via co-marketed actions

Palm European Enterprise Strategy

PalmSource 99

Working with Global Partners
Example: Lotus

- Put together special bundled offer (Palm III™ + EasySync) for resellers—France
- Participate in Lotus Developers conference—Germany
- Co-sponsor roadshows, roundtables and seminars
  - With IBM in France
  - With other local partners in Denmark and Sweden
- Support Lotus partners in various actions

Palm European Enterprise Strategy

PalmSource 99

Working with Global Partners' partners

- Bring partner up to speed on GPs application for Palm, and recent development/roadmap
- Identify how to generate added value
- Share locally experience gathered globally
- Leverage success and organize joint marketing activities

Palm European Enterprise Strategy

PalmSource 99

Working with Global Partners' partners
Example: UniWeb

- Identified by Remedy as "best VAR in Sweden"
- Define together strategy to get first success story fast (Swedish Post)
- Provide training for pre-sales and sales people
- Keep regular contacts to exchange information on prospects
- Co-organize/co-finance marketing activities

Palm European Enterprise Strategy

PalmSource 99

Working with Corporate Resellers:
The EAP—Enterprise Alliance Program

- Program limited to 1 or 2 resellers per country
- Goal is to change reactive to proactive approach
- Extensive support:
  - Technical (pre-sales)
  - Sales and marketing
- Identify and develop added value on simple solutions

Palm European Enterprise Strategy

PalmSource 99

Working with Corporate Resellers
Example: ComputaCenter

- Contacts established at various levels: product marketing, marketing, pre-sales, sales, IT, management
- Sponsor internal training event to develop close relationship with sales and pre-sales
- Added-value solutions marketed

European Specifics

PalmSource 99

- The GSM Market
  - Average penetration rate > 40% by 2000
  - Internet's penetration rate < 15% by 2000
- The Nordic region
  - Largest penetration rate in both GSM and Internet
  - 80% of Palm™ devices sold are purchased by companies

European Specifics

PalmSource 99

Leveraging mobile phones for enterprise applications
Example: Fimatex

- On-line trading platform for private investors
- Complete pack, including:
  - Palm III + GSM with built-in modem (optional)
  - 1 year subscription to France Telecom
    2 hrs service
  - Brokerage credit
- Secured architecture based on Proxinet (SSL)

Conclusion

PalmSource 99

- Penetration of Palm™ devices in the enterprise is high
- Palm has established a channel of partners
- Palm is committed to support the partners to create more value
