High Technology Products for the Palm™ Economy

Allen Penkake
VP Sales, TRG Products, Inc.

PalmSource
Conference 2000

Agenda

- Brief TRG history
- TRG software products for deployment and data safety
- TRGpro Handheld Computer

TRG: An Innovation Leader in the Palm Economy

- First third party accessory product for under the covers installation
- First use of Flash on Palm Powered™ products
- First use of DRAM on Palm Powered products
- First 8MB+ capacity on Palm Powered products
- First Flash software tool for user access to the Flash
- First Flash software tool running completely on the Palm products
- First industry standard CF usage in Palm OS® platform
- First file system implementation on Palm OS platform
- First tool for building Palm Powered device software images

Software for Enterprise/VAR Deployment and Data Safety

- ImagePro
- InstallPro
- FlashPro + FlashPack
- BackupPro
- DataPro

ImagePro Deployment Manager

- Like Norton Ghost for Palm OS® devices
- Build device software image on Windows PC
  - Include Palm OS
  - Delete Palm built-in apps of desired
  - Include user apps/databases in RAM or Flash
- Load many devices with same image (RAM + flash)
  - One person with one PC can load 1000/day
  - Consistent image quality
- Distributed image loading option
- Huge savings for large deployments
- IBM Internal, Cresenda Wireless, many others

InstallPro Application Guard

- Like InstallShield for Palm OS® devices
- Build install software “package” on Windows PC
  - pdb’s, prc’s, pqa’s, etc
  - Specify for each: RAM or flash install
- Easy-for-user; professional installation of Palm applications
- Safety of flash installations
- OmniSky uses InstallPro for all Palm™ Installations

FlashPro + FlashPack

- Utility user tool to move/copy items
  - RAM to flash
  - Flash to RAM
- Program and data safety
- FlashPack adds timer scheduling of database backups
- Recent price reduction:
  - FlashPro $14.95
  - Bundle $18.95

BackupPro

- "Your Grandmother's Backup"
  - Setup, Backup, Restore
- Backup selected programs + databases to flash
- Data and program safety in case of hard reset
- Enterprise/VAR tool; Allow users to backup
- Great for NetPrefs, Connections, AddressBook, DateBook, etc.
- Includes FlashProAPI so developers to build their own backup/restore
- List = $9.95, with quantity discounts

DataPro

This changes

everything

about Palm OS® device data safety

DataPro

- Backup RAM to:
  - TRGpro CF
  - Sony Clie SD
  - Palm SD (when devices available)
- Full backup/restore
- Individual database backup/restore
  - By time
  - On “exit”

DataPro

- Backup “on exit”
  - Dynamically back up every database (if changed), transparent to the user
  - Total data safety for every Palm™ application in the world, with no code changes
  - Changes Palm Powered™ devices from PDA to “enterprise transaction machines”

TRGpro

- The TRGpro has become the *premium choice* for the mobile professional
  - Connectivity
  - TRGpro Unique *Expansion* Features

Connectivity

- Communication
  - NextCell “PocketSpider” Wireless Expansion
  - CF Ethernet Connections
  - 56K CF Modems

Connectivity

- Business Applications
  - Inventory Control—BarScan
  - Reference
  - Remote Access
  - GPS and Mapping
  - Multimedia “PalmPoint” Presentations

Connectivity

- Expandability
  - Data Powerhouse
    - IBM 1GB MicroDrive
    - CompactFlash Storage Cards Type I/II
  - Bar Code Scanning
  - GPS

TRGpro *Unique* CF Features

- CFbackup—*Standard App*—
  On-the-Device Backup
- Auto CF—*Standard App*
  - Program Launcher
  - Access Data on CF
- CFpro—*Standard App*—
  Multi-level File Directory in CF
- TRG Multimedia—*"PalmPoint"*
  - *NOW*—PowerPoint on your Palm™ handheld
  - Slide Presentation with AUDIO!

TRG Products

- TRG Products continues to develop unique and powerful products and utilities for the developer… poweruser… enterprise customers… and mass deployment
- We look forward to serving your needs into the FUTURE…
