KYOCERA Smartphone

Gary Koerper
Senior Product/Program Manager
KYOCERA Wireless Corp.

PalmSource
Conference 2000

Goals of This Session

- Describe in greater detail the KYOCERA Smartphone
- Communicate our plans for the next several months
- Convince you that this platform will be hugely successful
- Show you where developers fit into our wireless world
- Highlight future wireless technologies

Overview of the Device—Phone

- Tri-mode CDMA phone
  - CDMA PCS
  - CDMA Cellular
  - Analog
- 4–5 hours talk time
- 100–200 hours of standby time
- Speakerphone, Headset
- Voice Dialing, Voice Memo
- Two-way text messaging
- Vibrate alert
- 142mm x 65mm x 23mm x 208

Overview of the Device—Palm OS®

- Palm 3.5 OS
- 8MB RAM
- Integrated stylus and touch screen
- Eudora POP3 email client
- Web clipping enabled
- HTML browser included
- Supports multiple WAP 4.1 browsers
- Infrared port

Overview of the Device—Accessories

- Shipped with the phone
  - Sync-cradle
  - Travel charger
  - Single battery
  - Palm's standard desktop software
  - Literature
- Other Accessories
  - Headset with microphone
  - Leather portfolio
  - Car power adapter
  - Portable hands free car kit
  - Extra batteries

Target Markets

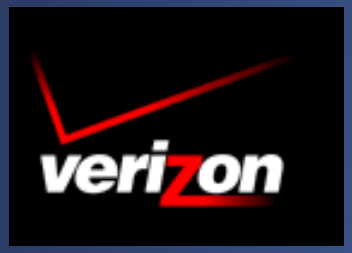

- Consumer and Retail Channels
  - Carrier stores
  - Consumer electronics chains
  - Direct via web
- Enterprise and Vertical Segments
  - Financial sector
  - Healthcare
  - Sales force automation
  - Inventory control
  - Others

Carriers and Regions

- Domestic Targets

- International Regions
  - Latin America, South America, Australia, Canada, Israel and others

Roll-out Plans

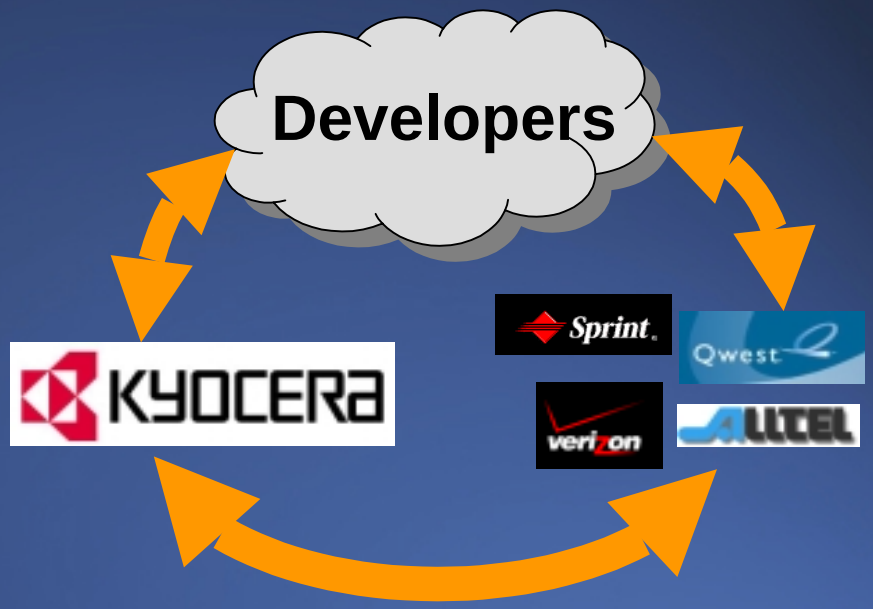

- Official launch date is driven by carrier acceptance process
  - 1- to 12-week certification with each carrier
- Domestic markets are primary focus
- Latin/South American markets have fewer restrictions on acceptance
- Any phones sold in Canada must also be in French

Platform Will Be Successful

- Volumes—Won't say, but…
  - Over 25 million CDMA cell phones will be sold in the US next year (estimate)
  - Target market—Palm users who carry cell phones
- Right form factor
- Data advantage
  - Supports three dominant data strategies: WAP, Web clipping and HTML
  - Run over tri-mode CDMA networks
    - Faster and more reliable than CDPD
    - Better footprint
- Price point competitive for high-end voice/data Palm product

Developers in Our Wireless World

- Major development opportunities need to engage both KYOCERA and carriers
  - Sales
  - Logistics
  - Support
- Carriers have different strategies for wireless data

KYOCERA Partners Program

Our Goal: To engage the Palm Economy and help our partners be successful on the KYOCERA Smartphone platform

KYOCERA Partners Program

Solution Providers

- Free registration at: http://www.kyocera-wireless.com
- Benefits include: SDK, FAQ, White papers

Technology Partners

- Companies offering applications and technologies that enable specific solutions on the KYOCERA Smartphone platform
- Joint PR, Partner-to-Partner introductions, Access to pre-launch products
- 5–10 companies over the next 12 months
- Looking at dominant companies in specific market segments
- Interested parties can submit proposals on web site

KYOCERA Partners Program

Global Partners

- Organizations established in their industry for delivering mission-critical solutions to enterprise and vertical markets

Wireless Enablers

- Domestic and International *carriers* offering wireless voice and data services
- Benefits include:
  - Joint marketing/PR
  - Back-end fulfillment activities
  - Partner-to-Partner introductions
  - Access to lead generation/pre-launch products

Emerging Wireless Technologies

3rd Generation Wireless

- CDMA2000
  - Migration from existing CDMA systems
  - Average data rates: 115 Kbps
  - Average capacity increases: 70%
  - Asian deployments starting in 2001
- WCDMA
  - Migration from exiting GSM/TDMA networks
  - Comparable data rates in capacity advantages to CDMA2000
  - Deployments will probably be further out

Emerging Wireless Technologies

Position Location

- FCC E9-1-1 Mandate
  - Carriers to provide the location of 9-1-1 wireless phone calls
- Carrier Implementation
  - 2001
    - October 1st: Deadline for first handsets
    - December 31st: 25% of all new handsets
  - 2002
    - June 30th: 50% of all new handsets
    - December 31st: 100%

Key Thoughts to Remember

- The KYOCERA Smartphone offers tremendous opportunity for Palm developers
- There will be a fast ramp to a critical market mass
- Look to our web site for developers information:
