Delivering on New Market Opportunities

- So, it's all about stretching the envelope. Creating and delivering new solutions that delight consumers
- For Sony, it's also about the right technologies and partners:
  - Products based on the intuitive and versatile Palm Operating System
  - Working with the Palm Development Community to create rich applications and innovation hardware solutions
  - Creating new markets and vehicles to deliver the value to consumers
- It's creating a richness for consumers that can only be realized by working together
