PalmSource Conference 2000

The Now Economy

Transported and transformed by the Internet and global commerce, we've entered the "Now Economy"...

... the customer is king…
and wired businesses everywhere are subject to 24/7 demand for constant information, customized products and instant electronic transactions.

CIO Magazine website, March 2000

2000+ Business Scenario
Mobility Is on the Rise

In 2-3 years...

- **20-25% of knowledge workers will obtain a companion computing device**

In 3-5 years...

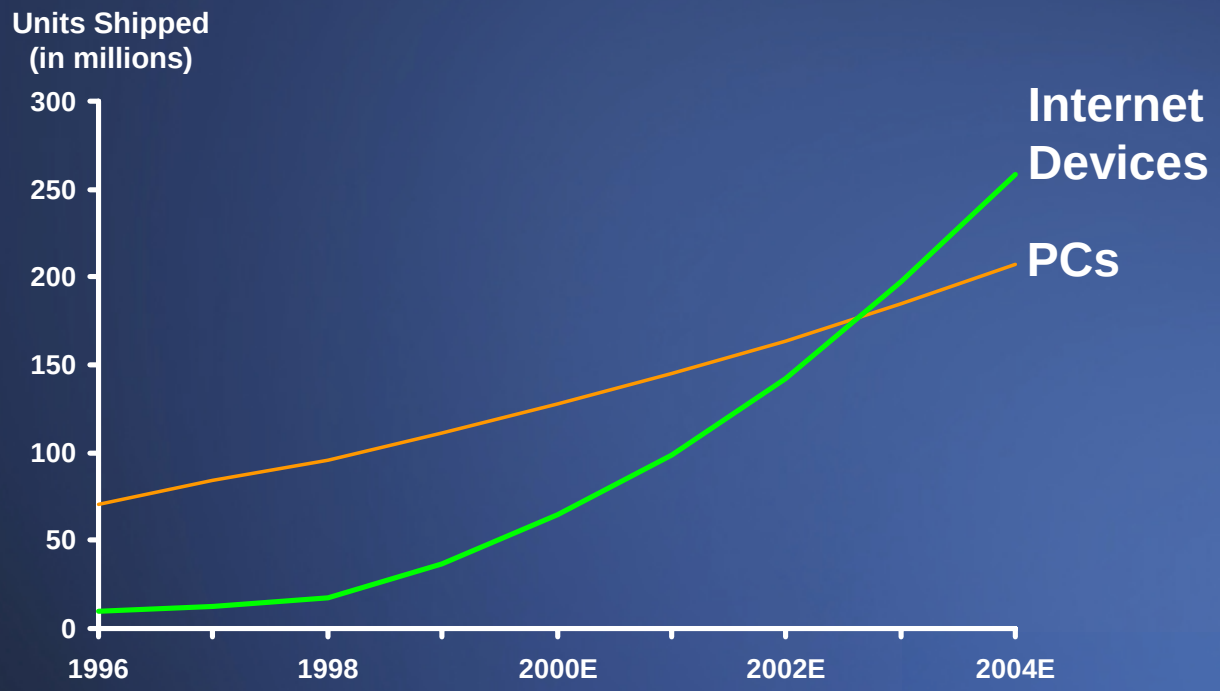

- **Workers will have 3-4 different devices used to access multiple applications**
- **75% of workers will be mobile 25% of the time**

META Group "Untethering CRM: "Customers@Anywhere.com" May, 2000

Devices and Content are Shifting Away From the PC

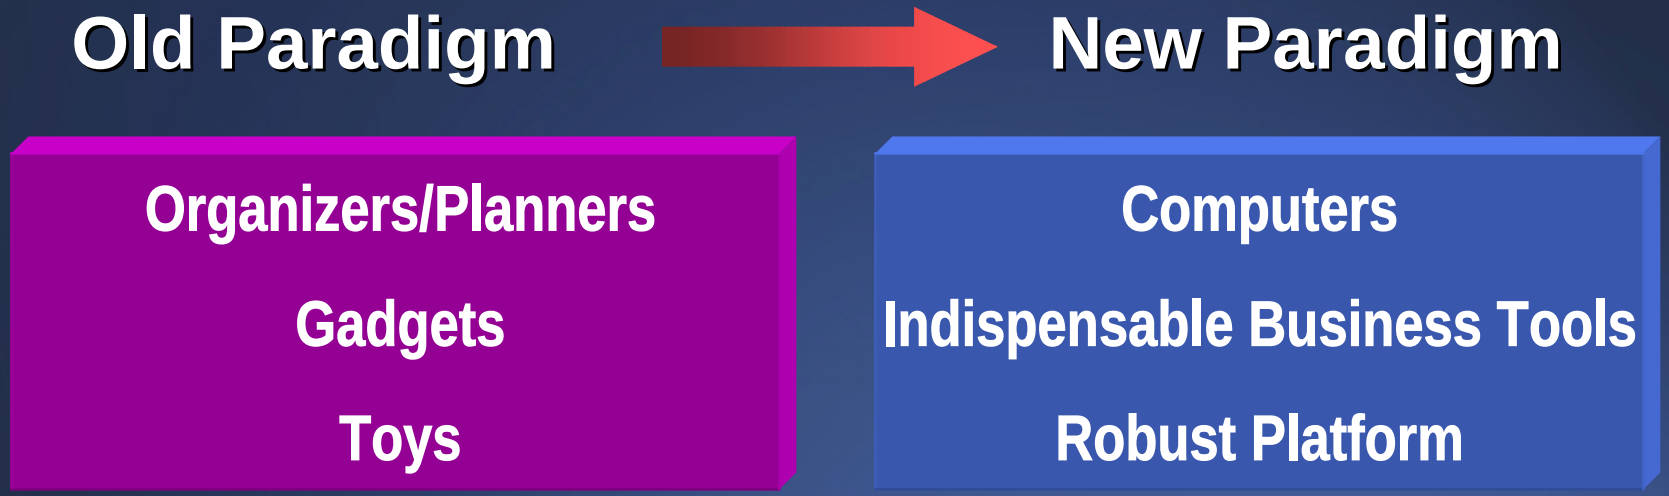

"Over the next five years, more than 80% of new corporate applications will be designed for non-PC devices…"

Gary Cohen
General Manager
IBM Global Telecommunications

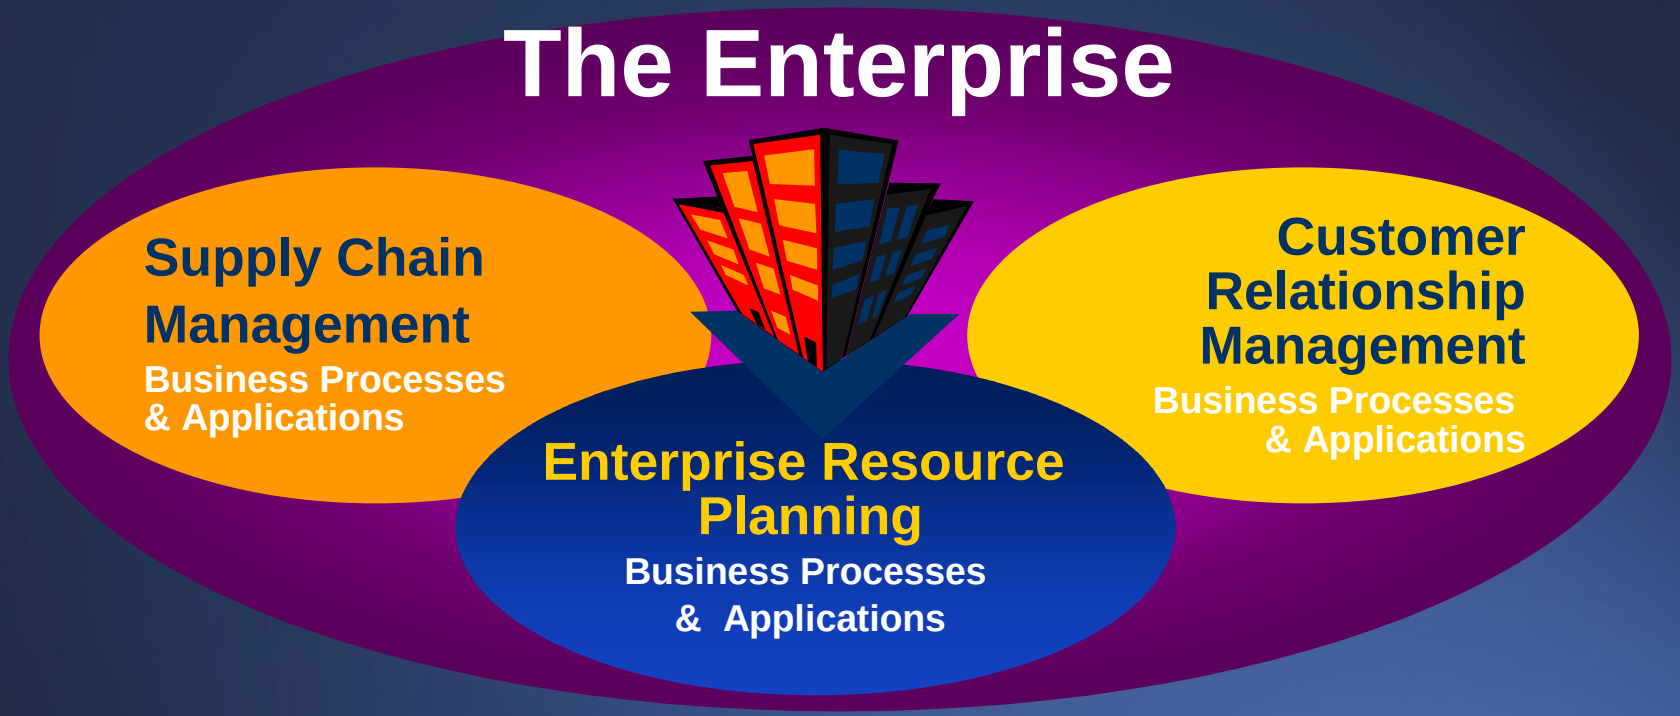

Source: Morgan Stanley Dean Witter Equity Research, IDC, The Yankee Group

Benefits of Handheld Solutions

This tiny platform now has the potential to be a cornerstone of the organizational network

The e-Business Model
