Developing a Corporate Mobile Strategy

- Assessing current business needs:
  - What are your key business drivers?
- Developing key internal constituents
  - Selecting your core team
- Develop short and long term objectives
  - Where should project be when complete?

Selecting a Mobile Services Partner

- Introduction
  - Panel
  - Firms
  - Market experience
- Benefits of leveraging world-class Services Firms with strategic relationship with Palm
- Evaluating Professional Services Partners

Enterprise Alliance Program

- A Palm™ branded program which aggressively supports leading firms that are bringing custom integration services to Palm's enterprise clients

Enterprise Alliance
Trusted Industry Leaders

- Consult on national basis with enterprise clients
- Commit to strong Palm OS®—practice
- Possess demonstrated expertise in deploying Palm™ solutions with referenceable clients
- Leverage a world-class client methodology, from mobile strategy to deployment
- Work closely with Palm in joint solution development
- Tightly integrated at field level for seamless client interaction

Beginning Your Mobility Process

- Where is corporate operational pain?
- Selecting the right application to start:
  - Select High probability of success: B2B, B2E, B2C?
- Developing a technology evaluation method
- Should solution include Wireless or Wireline connectivity: Or Both?
- Assessing your end users
  - Will they use solution?
  - Technical Competence levels

Deploying Your Solution

- Developing and measuring a pilot project
- Integrating with your IT resources
  - Middleware synchronization options
- Operation rollout issues
- Leverage wireless hosting platforms or Internal behind firewall solutions?

Post Implementation Support and Evaluation

- Building support processes
  - Hardware
  - Software
- Internal or outsourced support
- Assessing success and determining ongoing ROI measurements

Furthering Your Mobile Vision

- Building upon you initial success
  - Leveraging success into future projects
- Keeping control of user expectations
  - Success equals demand: Are you ready
- Extending mobile solutions externally
  - Customers
  - Partners
