PalmSource
Conference 2000

Introduction to Vertical Markets

Christy Wyatt
Director, Strategic Alliances & Market Development

PalmSource Conference 2000

Introduction

- Welcome to the market segment tracks at PalmSource 2000!
  - 9 markets
  - 12 presentations/panels
  - 4 roundtables
- Healthcare, enterprise, media, education, legal, finance, and more

Objectives

- Demonstrate the power of Palm Computing in a variety of market segments
- Discover new business opportunities
- Help you maximize your time

75% of Workers Will Be Mobile

"We expect more than 75% of knowledge workers to be mobile at least 25% of the time by 2003/04."

"By 2004, each corporate knowledge worker will have three to four different computing and information access devices that will be used to access various applications. Indeed within two to three years, 20–25% of knowledge workers will obtain a companion computing device (e.g., Palm)."

—Meta Group "Entering the Mobile Millennium" 2/14/00

Strong and Rapidly Growing Developer Community

Source: SPP Data, June 2000

PalmSource Conference 2000

Market Development Goals

- Work with industry leaders to bring handheld computing to new market segments
- Grow the number of solutions available within target segment
- Develop a solutions economy within each segment that represents opportunity to Palm, our licensees and developers
- Continue to build the momentum of handheld computing

What Makes a Market Segment Attractive?

- Market potential
- Installed user base
- Customer demographics
- Potential partners
