PalmSource
Conference 2000

Palm, Inc.
CRM Overview

Steve Stefanik
Manager, Developer Alliances

PalmSource
Conference 2000

Agenda

- What is CRM?
- How do Palm Powered™ handhelds increase your CRM value?
- Growth in mobile workforce, CRM and Palm means exploding opportunities!
- What type of Palm Powered solutions can you develop?

CRM

- CRM (Customer Relationship Management)
  - A set of applications to manage all customer touch points under one enterprise umbrella
  - These unified applications can provide customer facing employees an entire customer/company interaction profile

CRM—Managing Customer Touchpoints

Customer Interaction

PalmSource Conference 2000

Why the Growth in CRM?

- Value to your enterprise
  - "CRM is unique" because
    - It increases revenues
    - Provides a competitive advantage
    - Enables the enterprise to optimally manage and retain its customers"
    - Aberdeen Group,
      Managing Customer With Next Generation Software Application

Linking CRM and Palm

PalmSource
Conference 2000

Enable Your Mobile Workforce

- More current and accurate information in front of the customer
  - When and where they need it!
- Improves the speed of decision making
  - Carrying, in your hand, your most current inventory levels, prices and availability to close the deal
- Maximize customer experience and interaction with your company
  - Does the customer feel unique, because they are. You can carry their profile with you at all times
- Easily and accurately bring your customer information back to your company
  - Automate workflow intensive field task, increasing accuracy of information capture while reducing paperwork and 2nd data input

Innovative Companies Enjoying the Palm CRM Advantage

Conference 2000

Devices and Content Are Shifting Away From the PC

"Over the next five years, more than 80% of new corporate applications will be designed for non-PC devices…"

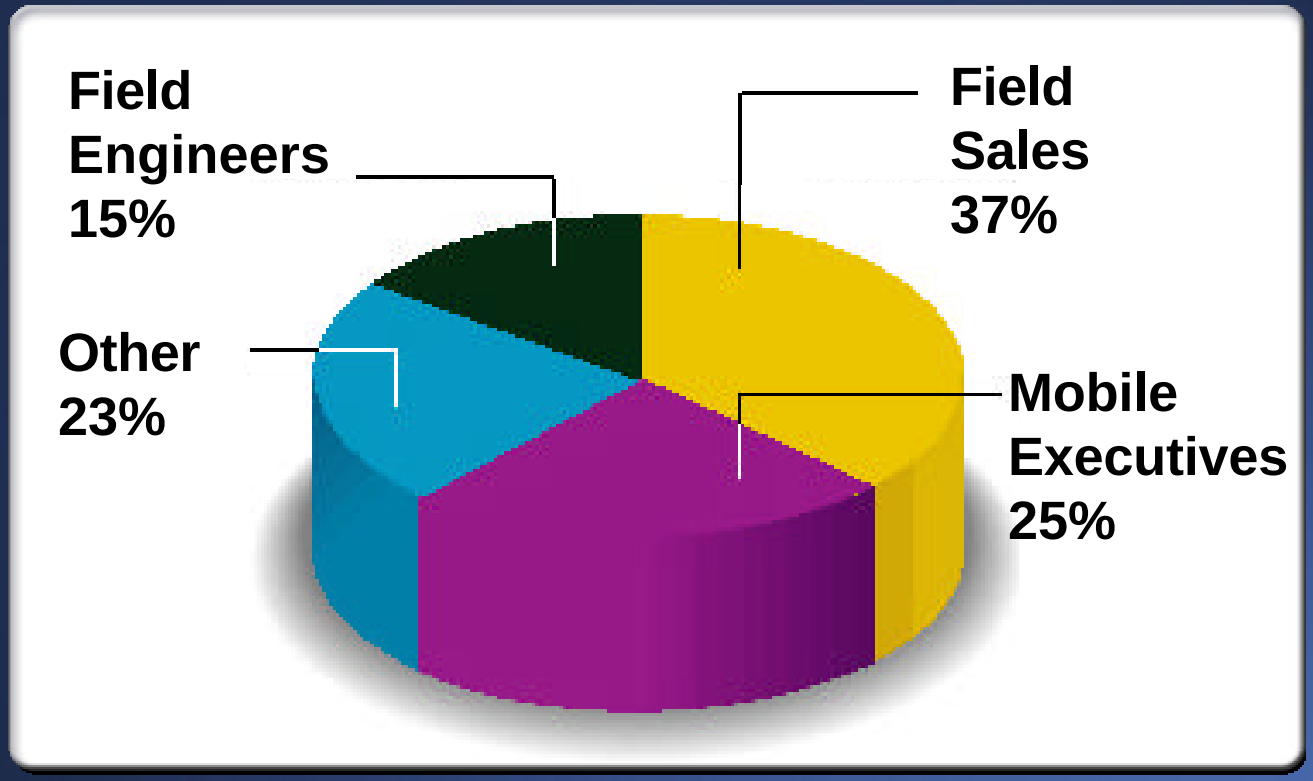

Gary Cohen, General Manager
IBM Global Telecommunications

Source: Morgan Stanley Dean Witter Equity Research, IDC, The Yankee Group

PalmSource Conference 2000

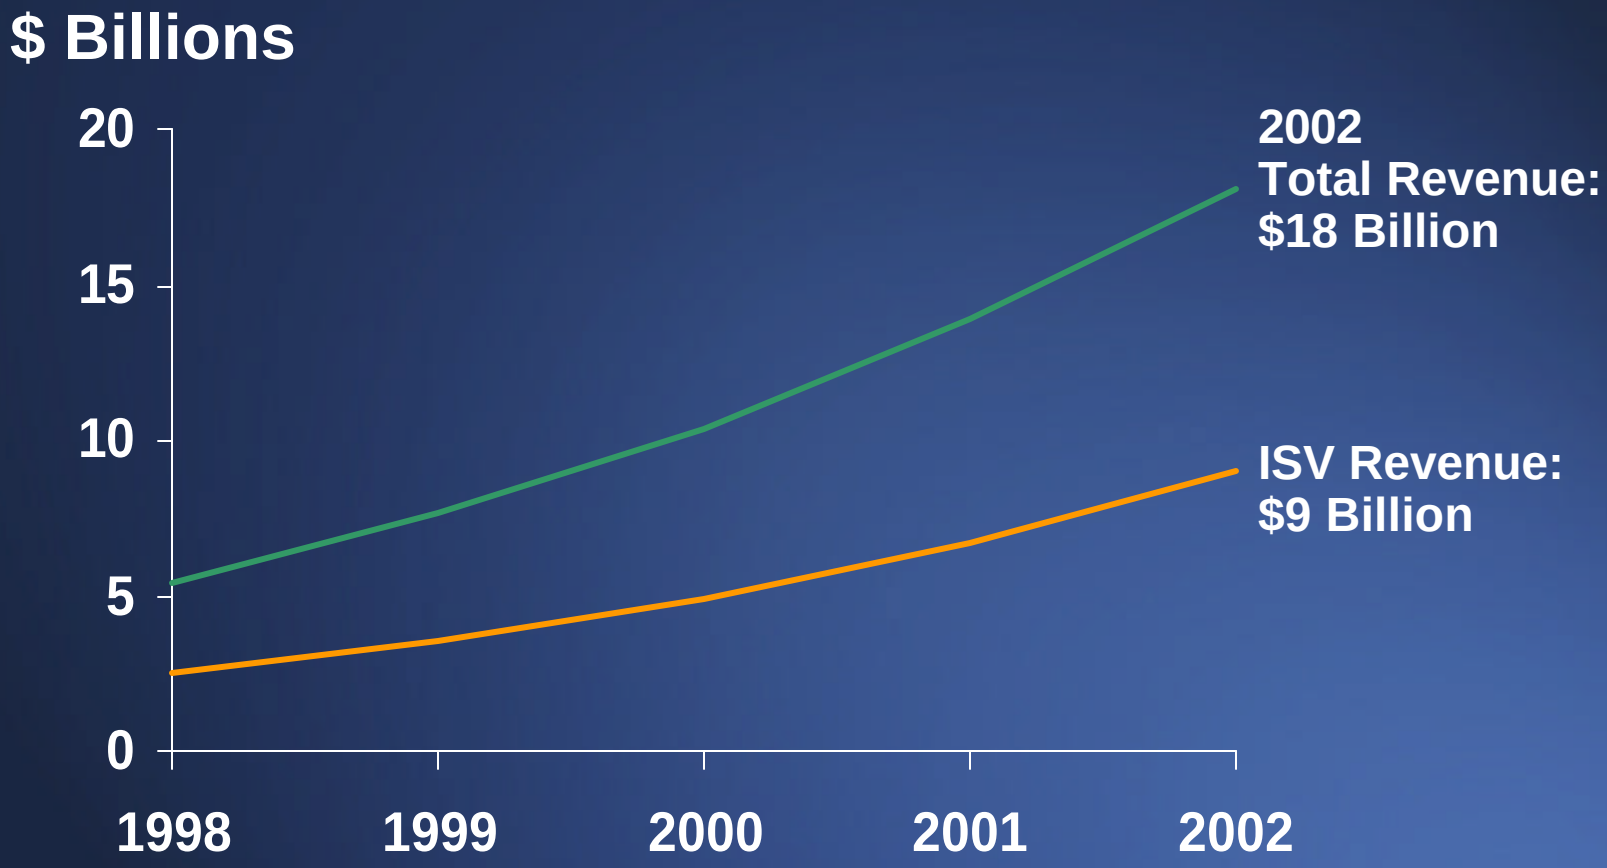

CRM Applications Are Cornerstone of Mobile Workforce

"The U.S. mobile and remote-worker population will grow 41% from 39 million in 2000 to 55 million in 2004. Field sales professionals comprise the largest percentage of this remote-worker population."
