New Technology

Bill Stanley

Senior Engineer, Advanced Technology

New Technology SecureMMC

- SecureMMC is an official specification of the MultiMediaCard Association
- 100% compatible with standard MultiMediaCards
- Two specifications available: content protection and WIM (SmartCard)
- Applicable for wide market appeal: enterprise, content distribution, government
- Two new developer programs: Content and SmartCard programs being formed
- Join the MMCA today! @ http://www.mmca.org

New Technology
SDIO Bluetooth

- Palm SDIO Bluetooth Expansion Development Kits currently available at the Palm Expansion Parts Store
  - 2 Palm SDIO Bluetooth cards
  - 1 Palm Universal Connector serial cradle
  - All software and documentation
  - $199 USD
  - Only available to PluggedIn Program expansion developers
- Software and support provided by Palm, Inc.

Next Steps

Next Steps
Existing PluggedIn Program Members

- Complete the online application at www.palm.com/pluggedin
- No need to complete an additional PluggedIn Program Membership Agreement
- To expedite your renewal, send an email to pluggedin@palm.com with “renewal” in the subject line.
- You will be given a new user id and password within 1–2 business days

Next Steps
New Hardware Developers

- ✓Step 1a – Apply for the PluggedIn Program and send in paperwork
  - www.palm.com/pluggedin
- ✓Step 1b – Interested in SDIO development? Join the SD Association
  - www.sdcard.org
- ✓Step 2 – Once approved, take advantage of the PluggedIn Program web site and its many resources
- ✓Step 3 – Develop a Palm expansion solution
- ✓Step 4 – Keep us informed

Next Steps
New Software Developers

- ✓ Step 1
  - Apply for the PluggedIn Program and send in paperwork. Tell us about your ideas for Palm-specific software expansion applications at:
  - www.palm.com/pluggedin
- ✓ Step 2
  - Once approved, take advantage of the PluggedIn Program web site and its many resources
- ✓ Step 3
  - Develop a Palm-specific software solution
- ✓ Step 4
  - Keep us informed

Next Steps

Service Providers and Everyone Else

- This includes companies that want to provide services to PluggedIn Program 3rd-party developers

✓Step 1

  - Apply for the PluggedIn Program and send in paperwork

✓Step 2

  - On the online application, enter a description of what you would like to do or offer, and the PluggedIn Program will show you the way
