Palm OS Developer Certification

Developer Certification Frequently Asked Questions

1. What topics are covered on the exam?

   You can find the list of topics at Required Skills for Developer Certification. You can view the different topics and skills covered on the exam, by selecting a main topic from the Table of Contents.

2. How do I prepare for the exam?

   The best preparation for this exam is gaining experience developing applications for the PalmOS. The more hands on experience, the better prepared you will be. To supplement your experience, we recommend you take advantage of our training classes, documentation, and sample code, as well as our developer forums. For more information on preparation, please visit Preparing for the Palm OS Certification Exam.

3. Is there a sample exam?

   Yes! You can find a copy of the sample exam at Sample Questions for Developer Certification.

4. Where can I take the exam?

   The Palm Powered Certified Developer Exam is offered through Prometric testing centers. In order to locate a testing center in your area, you will need to sign up for a student account at Thompson Prometric. After your account has been set up (which normally takes 24 hours), you will be able to log on, select the "Palm Powered Certified Developer Exam" topic, and search for testing centers.

5. How many other people have passed the exam?

   To see a list of the current Palm Powered Certified Developers, visit Find a Palm Powered Certified Developer.

6. Will you refer me to potential clients if I pass the exam?

   Yes! PalmSource receives requests from our licensees and other companies looking for top developers to help them with their projects. As a Palm Powered Certified Developer, we can refer your name with confidence to our licensees, and to anyone else in need of top-notch developers.

7. Will I be able to use the Palm logo to indicate my status as a certified developer?

   As a certified developer, you will be able to use a specially created logo that will help to set you apart from the rest of the developer community. For more information on this and other benefits of the certification program, visit Benefits of Certification.

8. How can I submit a question about certification that isn't addressed on your web site?

   If you still have questions, please feel free to submit a question using the question submission form at the bottom of the certification home page, For More Information.
